EARTHLINES
Solstice

Summer ~ 2019

Today Earth stands still:

continue rotating closer and closer to the sun?
or turn away towards shadow?

Earth always turns.

There is a time for light
and a time for shadow work.

Today I turn my face away from the sun
and my shadow comes into view.

All form has shadow.

And the play between shadow and light
in the realm of form
is what we call beauty.

I look out my window

Perched on a green branch in dappled light
this dance between hidden and seen
is a continuing genesis of Life.

Today, welcome turning toward the dark,
celebrating the indivisible womb in which life gestates.
Imagine Mother's arm circling round,
like a great embracing umbra,
gently pulling us back toward her generative lap.
A hand moves across our brow,
closing eyes against summer's coming fire,
releasing dreams and the bravery
to wrestle old demons into surrender of their shadowy gifts.

Join ancient wisdom,
turning radiance back to dissolution.
It is from the invisible that beauty springs,
surprising us
with births
truly new.
