Subject: [EXT]Dust mitigation on the Mesa

ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

I live in Nipomo on the Mesa.

Unfortunately I will be unable to attend the APCD hearing board meeting on 11/18, but certainly want to express my feelings.

For 19 months the SOA has been ignored by State Parks. It is so insulting and frustrating to watch helplessly as a government agency thumbs their nose at local citizens worried about the environment and their health.

I understand the need for recreation but the environment and our health come first. I think a middle ground can be found and the SOA is a good beginning.

I hope and pray that the APCD exercises its authority and will vote to discontinue vehicle activity on the La Grande tract until such time that State Parks meets its obligations under the SOA.

Sincerely,

Claudia Horton
