Subject: [EXT]Oceano Dunes

ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

Hi:

We have recently taken occupancy of a new home on Eucalyptus Road, overlooking the Pacific Ocean and the dunes.

The wind brings sand and other particles, and we understand that these events mean that the particles in the air exceeds the maximum permitted in California.

We urge the committee to do everything possible to ensure that the air we are breathing is “fit for human consumption”. We understand that those that enjoy riding their machines on the dunes are trying to overturn the decisions made by the committee.

We urge the Committee to protect the health of those of us who live here, and are paying real estate taxes to the county.

Thank you.

Anthony Lord and Pamela Chase
1610 Eucalyptus Road
Nipomo, CA 93444
