Subject: [EXT]Comment for APCD Board Meeting January 27

ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

Board Members,

As you likely know, the State Parks Off-Highway Division has submitted its long-delayed Public Works Plan. The PWP actually expands OHV riding, the proven cause of the dangerous air pollution that plagues those who live and work on the Nipomo Mesa. It brings the air pollution even closer to Mesa residences. Furthermore, it proposes to develop additional acreage in environmentally sensitive area and would also increase light and noise pollution on the Mesa.

The Coastal Commission envisions a different future for the Oceano Dunes and has put forth its recommendations, the most important of which have been ignored.

My "ask" is to have the APCD Board weigh in in opposition to approval of this Public Works Plan in the interest of County residents and the environment. This must not stand. Thank you.

Arlene
