**2015 Central Coast Sustainability Festival and Green Car Show**

SAN LUIS OBISPO, California –The Central Coast Clean Cities Coalition (C5) will host a Green Car Show at the 2015 Central Coast Sustainability Festival, May 2 from 11:00 am– 4:00 pm at the Mission Plaza in San Luis Obispo. A variety of alternative fuel vehicles will be on display including, natural gas, plug in hybrids, and electric vehicles. The vehicles will be set up on Broad Street adjacent to the Mission Plaza (between Palm and Monterey St.). There will also be a “*Ride and Drive*” where visitors will be able to test drive some of the vehicles. This is an excellent opportunity to view the alternative fuel vehicle technologies on the market today and talk with individuals and businesses that operate these vehicles throughout the Central Coast. Use of alternative fuels is critical to reducing dependence on foreign oil and improving air quality. Stop by the Green Car Show to see how fleet operators and consumers can make transportation decisions that drive our nation successfully into the future.

###

---

*C5 is part of the large effort to diversify the use of transportation fuels, promote clean vehicle technologies and help keep our environment clean. Members of C5 range from school districts, cities, county agencies, fuel providers, vehicle manufacturers, fleet operators, environmental organizations and many local interested individuals. Stakeholder participation is critical to the success of this coalition. Additional information and membership forms are available on the C5 website at [www.c-5.org](http://www.c-5.org)*
