October 12, 2026

To APCD Hearing Board,

Please take action to improve the health and safety of Nipomo residents by insisting that responsible standards are referenced to improve Nipomo's frequently worst air quality in the nation. Mandate a Work Plan that is based on healthy emission levels and that is referenced to similar land areas without OHV activity. Ensure that adequate dune vegetation is established to control and reduce emissions. Guarantee a Work Plan that will result in the long needed significant improvement to Nipomo's un-healthy air quality.

Nipomo residents are forced to monitor air quality and limit outdoor activity on high OHV riding area emission days. Do your job as an enforcer of air quality and **finally** correct and protect Nipomo's air quality.

Charles Getzoff
Nipomo Resident
