CivicSpark Block Party: Simple Steps for Energy Efficiency

On Thursday, May 28 from 6 – 9 pm join the Central Coast CivicSpark-AmeriCorps team at the Energy Efficiency Block Party in conjunction with the SLO Downtown Farmers' Market. Stop by Broad Street, between Higuera and Monterey, to learn more about simple steps you can take to reduce your energy usage and lower your utility bills. Over twenty businesses and organizations are participating to provide information on energy upgrades, rebates and financing, solar, and fun interactive activities for all ages. Don't miss out on your chance to check out our alternative fuels car show, Central Coast Green Builds sustainable materials and resource trailer, sustainable home and business showcase, energy consultations, and drop off your e-waste and ink cartridges at our collection station (small electronic devices only).

Make sure to also stop by the CivicSpark booth for your chance to win a water catchment bucket generously donated by Farm Supply and Home Depot (supplies are limited so stop by early).

This event is sponsored by: SLO County Air Pollution Control District, emPower and Central Coast Clean Cities Coalition. Learn more about this event at: slocleanair.org/programs/civicspark

More about CivicSpark:

CivicSpark provides high-quality support to local and regional governments, helping California communities pursue clean energy, reduce greenhouse gas emissions, safeguard against climate change impacts and implement sustainable community strategies.
