ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

As a resident of the far southwest corner of Nipomo & a resident of this county for 32 years, I can attest to the acceleration of both high winds & blowing sand.

ANY mitigation to protect people, animals, plant life & property must be put at the top of the list to protect.

With this in mind, please stop the trampling of our coastal dunes. The unnecessary broadcasting of pollutants for the sake of recreation is just a mindset from the past.

Jaclynn Nisbett
