Dear Hearing Board Members,

This is to express my full support for the comments submitted by the Concerned Citizens for Clean Air.

It is regrettable that there are so many elements of the Stipulated Order of Abatement that have not been implemented, so I urge that it be extended.

In particular, attention needs to be given to those areas still emitting more dust than is healthy as evidenced by comparison when the dunes activity was shut down during the COVID-19 pandemic and with the readings being taken by the Oso Flaco monitor.

Finally, to be fully transparent to the public about the situation, I also urge that the report be widely circulated after rephrasing in language that the public can understand and make informed judgments about.

Thank you for your service on our behalf.

Sincerely yours,

John O'Connell
