

# Memorandum

**Date** : March 28, 2019

**To** : Gary, Willey, Air Pollution Control Officer  
SLO County Air Pollution Control District

**From** : Dan Canfield, Acting Deputy Director <<e-signature>>  
Off-Highway Motor Vehicle Recreation Division  
Department of Parks and Recreation

**Subject** : Stipulated Order of Abatement (SOA) 17-01- Revised Preliminary Concept PMRP

Attached please find the March 28, 2019 Revised Oceano Dunes Preliminary Concept Draft Particulate Matter Reduction Plan (PMRP).

This revision is the product of collaboration between the Department of Parks and Recreation (DPR), California Air Resources Board and members of the SOA Scientific Advisory Group (SAG). Changes were guided by the comments provided by SAG and the SLO APCD on the February Preliminary Draft PMRP. The SAG and DPR continue to refine the Evaluation Metrics contained in Attachment 8. An updated version of the Evaluation Metrics will be provided when available.

The revised PMRP represents a commitment from DPR to comply with the SOA, proceed with dust control efforts, conduct additional environmental monitoring as requested by the SAG, and continue refinement of the Lagrangian Stochastic Dispersion Model. An adaptive management approach will be utilized as we learn from implemented projects and monitoring data, then adjust future work plans and project implementation.

Thank you
