Subject: [EXT]APCD Hearing Board Meeting

ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

To whom it may concern:

I am sending this email to state that State Parks has not kept its word re dust emission controls promised in the past and that they should sincerely add 50%-60% more acreage to the mitigation process for the calendar year of 2022. Please do not allow State Parks to drag their feet any longer re this matter!! The health of tax paying citizens in the effected area are certainly more important than recreational gratification derived primarily from out of town people who do not pay property taxes here but come and use/destroy our dunes areas. Thank you.
