The District may provide an exemption from Section 93105 of the California Code of Regulations - Asbestos Airborne Toxic Control Measure For Construction, Grading, Quarrying, And Surface Mining Operations for any property that has any portion of the area to be disturbed located in a geographic ultramafic rock unit; if a registered geologist has conducted a geologic evaluation of the property and determined that no serpentine or ultramafic rock is likely to be found in the area to be disturbed. Before an exemption can be granted, the owner/operator must provide a copy of a report detailing the geologic evaluation to the District for consideration. The District will approve or deny the exemption within 90 days. An outline of the required geological evaluation is provided in the District handout **“ASBESTOS AIRBORNE TOXIC CONTROL MEASURES FOR CONSTRUCTION, GRADING, QUARRYING, AND SURFACE MINING OPERATIONS – Geological Evaluation Requirements.”** See the APCD Website map: [slocleanair.org/rules-regulations/asbestos/noa.php](http://slocleanair.org/rules-regulations/asbestos/noa.php)

**NOTE: A basic exemption evaluation fee of \$187.50 will be charged.**

**APPLICANT MUST SIGN BELOW:**

*I request the San Luis Obispo County Air Pollution Control District grant this project exemption from the requirements of the ATCM based on the attached geological evaluation.*

Air Pollution Control District  
San Luis Obispo County

## Naturally Occurring Asbestos (NOA) Fees

Projects where Naturally Occurring Asbestos such as serpentine rock is likely to be found are subject to the State Asbestos Airborne Toxic Control Measure (ATCM) for Construction, Grading, Quarrying, and Surface Mining Operations. Grading projects in the APCD planning area for serpentine rock will require prior District approval of an exemption from the ATCM or an Asbestos Dust Mitigation Plan

Effective June 22, 2016, the revised project review fees by the San Luis Obispo County Air Pollution Control District (APCD) are as follows:

|   | Basic Fee                              |   |  |  | Additional Fee                        |   |
|---|--|---|--|--|---------------------------------------|---|
|   | Geological Evaluation & Full Exemption | Geological Evaluation & Conditional Exemption | Geological Evaluation & one (1) acre or less | Geological Evaluation & more than one (1) acre | Dust Control Plan Review and Approval | Dust Control Plan Review & Approval with Monitoring |
| Construction, Grading, Roads, Surface Mining, & Quarrying in Serpentine | \$187.50                               | \$250.00                                      | \$312.50                                     | \$312.50                                       | \$125.00                              | \$250.00  |

Prior to any grading activities at your site, a geologic analysis may be necessary to determine if serpentine rock is present. All subject project applicants should complete an exemption form or the Construction and Grading Project form. These forms, maps, and additional information can be found on the District web site at: [www.slocleanair.org](http://www.slocleanair.org)

In order to process the review of your project in the shortest time possible, please contact the District immediately at 805-781-5912

Please note that any necessary San Luis Obispo County Air Pollution Control District staff time or resources expended to provide state regulation compliance determinations to any person, regardless of permit status, may be charged at a rate which reflects labor costs as set by the Air Pollution Control Board and actual costs incurred by the APCD.
