

Off-Road Equipment Replacement 2019 PROGRAM ELIGIBILITY

For more information
please contact the APCD at
805-781-5912

1. Funding Opportunity Limitations:

- Grant-funded equipment replacement projects must be completed 3 years in advance of emission-reduction requirements of the ARB Off-Road Regulation (2 years for small fleets).
- Exempt Agricultural Equipment as defined in the ARB Off-Road Regulation currently has no time limitation on funding eligibility.

2. Maximum Eligible Funding Amounts:

- Funding is available for up to 65% of eligible costs of the new equipment, subject to the cost-effectiveness limit and maximum award amounts stipulated in the RFP. Replacement equipment with program-eligible engines that do not meet the Tier 4 final emission standards will have a maximum award of 40% of the eligible costs.
- Eligible costs are defined as the purchase price of the new equipment, taxes, and reasonable delivery charges. Grant funding is only to be used to pay for items essential to the operation of the equipment.

3. Existing Equipment Requirements:

- Must be self-motive, heavy-duty off-road equipment (e.g. agricultural tractor or construction equipment) with an uncontrolled (Tier 0), Tier 1 or Tier 2 engine of at least 25 hp.
- Old equipment must be in operational condition and in regular use in California for the previous two years.
- Equipment must be owned by a company with a physical address in SLO County.
- Old equipment must be registered, if required by ARB regulation (e.g. Diesel Off-road On-line Reporting System), and fleet must be in compliance with all applicable rules and regulations, including the ARB Off-Road Regulation. All stationary or portable diesel engines 50 horsepower or more on the property must be registered with or permitted by the APCD.
- Old equipment and engine must be destroyed and delivered to an approved salvage yard. See the current list at: www.slocleanair.org/community/grants/moyer.php
- The replacement of two (or more) pieces of old, like equipment with one piece of equipment may be eligible for funding.

4. Replacement Equipment Requirements:

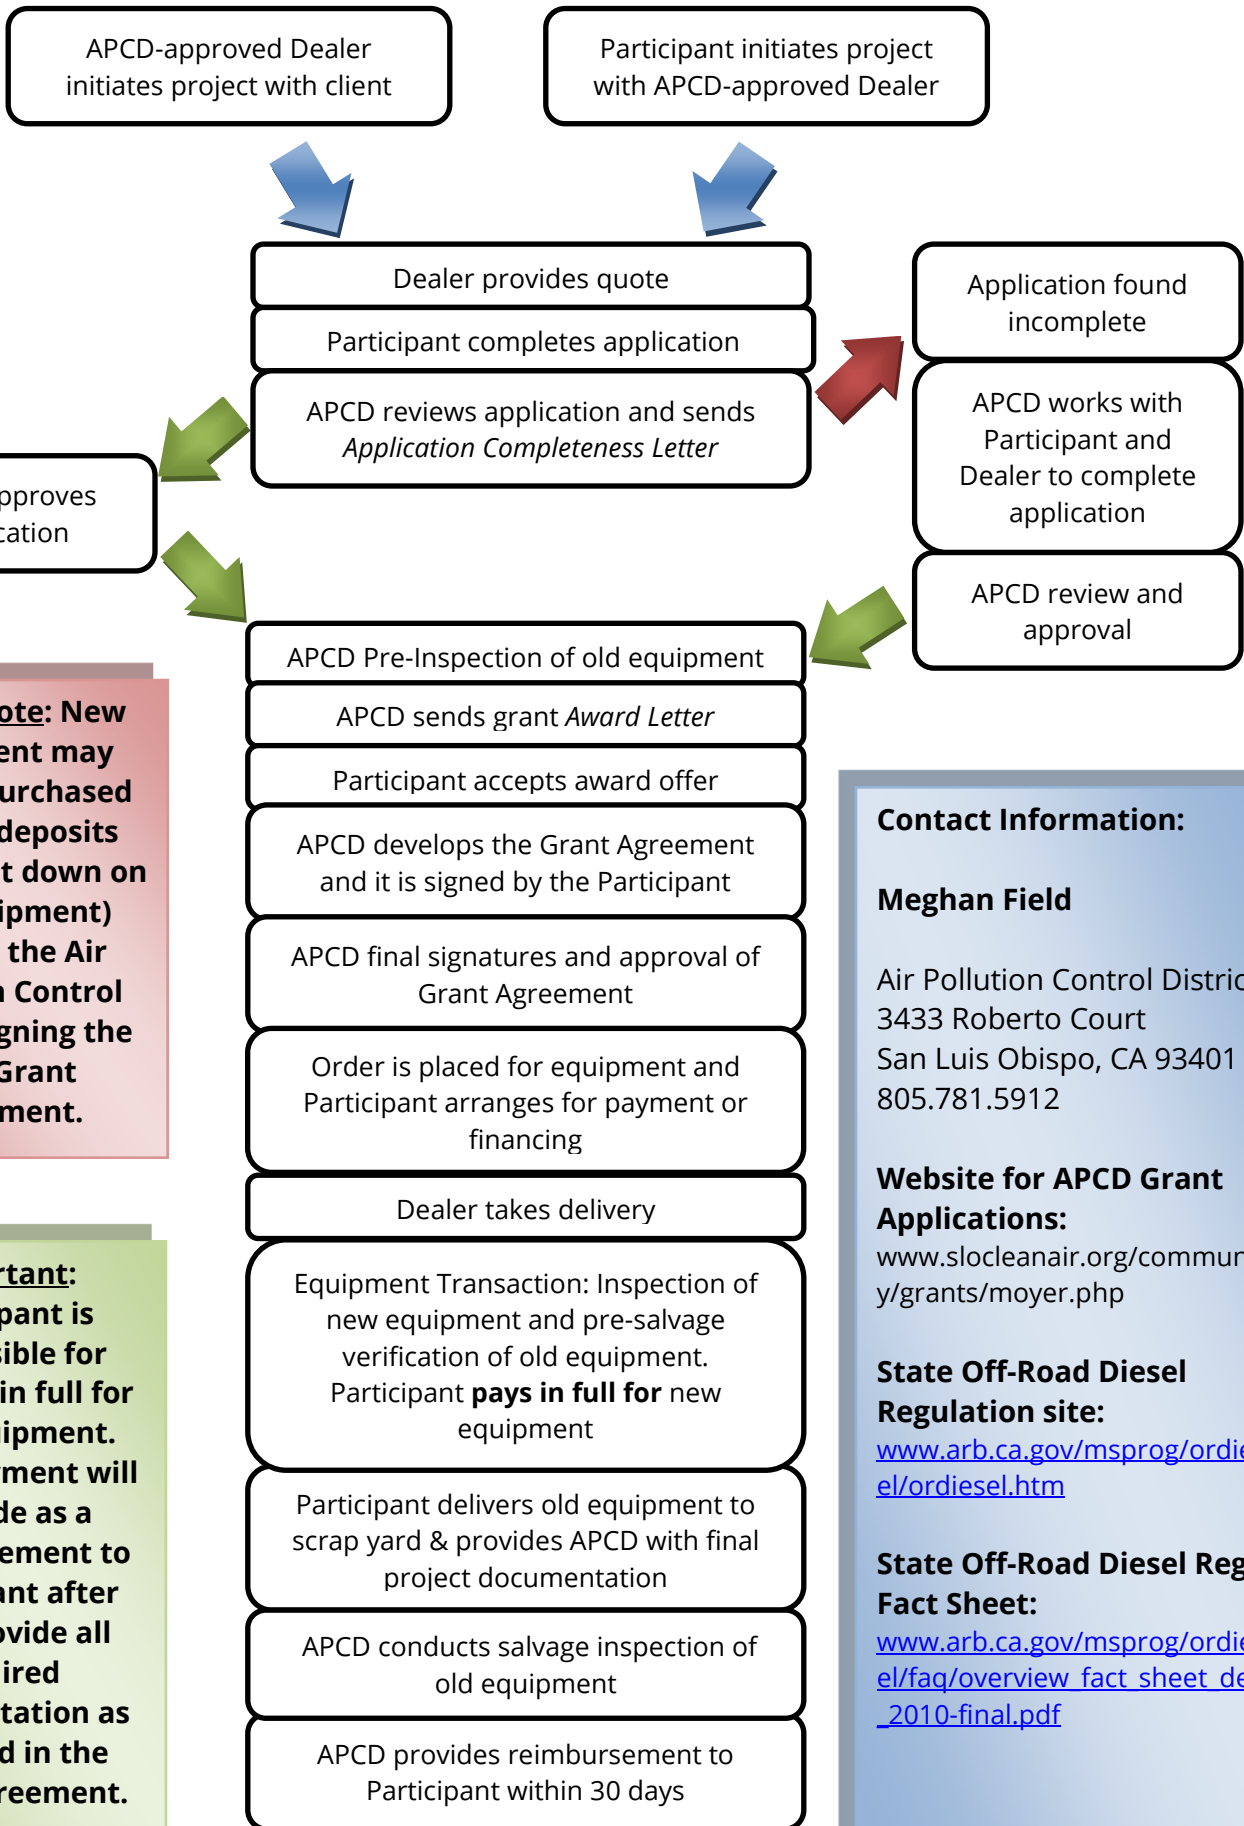

- Replacement equipment must be purchased through an APCD-approved dealer. See current list at: www.slocleanair.org/community/grants/moyer.php
- This Program does not provide funding for used equipment.

- Replacement equipment must have an engine meeting Tier 4 final emission standards, or cleaner. Replacement equipment with program-eligible engines that do not meet the Tier 4 final emission standards may be eligible for funding at a reduced rate.
- Replacement equipment must serve the same function and perform equivalent work as the old equipment (i.e. like for like functionality), with at least 75% of operation in California.
- Horsepower of new engine in replacement equipment must not be greater than 125% of the original manufacturer rated hp for the old engine.
- Replacement equipment must have a minimum one year or 1600 hour engine and drivetrain warranty covering parts and labor.
- Replacement equipment must be equipped with a fully operational, non-resettable hour meter.

F. APPLICANT'S STATEMENT - To be signed by company representative with contract signing authority

- ❖ I hereby make an application to the San Luis Obispo County Air Pollution Control District (APCD) for emission reduction incentive funding and I understand and agree to the following:
 - In order to receive incentive funds, I must enter into a Grant Agreement (contract) with the APCD and there will be conditions placed upon receiving the grant award. I agree to refund the grant award, or a portion thereof as specified in the Grant Agreement, if it is found that at any time I do not meet those conditions and if directed to do so by the APCD or the California Air Resources Board (ARB).
 - I will not place orders, make purchases or begin any work associated with this project until notified by the APCD that all parties have signed the project's Grant Agreement and it is effective.
 - The replacement equipment and its certified emission system must operate in a manner consistent with historic usage of the old equipment, with at least 75% of operation in California, for the life of the Grant Agreement.
 - All information provided with this application will be used by the APCD and/or ARB to evaluate the eligibility of this application to receive incentive funds. APCD/ARB will at its sole discretion determine which program funds, if any, will be used for this project. APCD/ARB staff reserves the right to request additional information of the applicant and can deny the application if such requested information is not provided. APCD will contact applicants who submit incomplete or illegible applications and work with them to complete the application. If the applicant does not respond within 30 days, the application will be suspended; in such cases, the applicant can petition the APCD to re-initiate the application if they supply the previously identified missing information. The APCD may require the applicant to provide updated information.
 - To expedite application processing, APCD's preferred method of communication is through electronic mail. Failure by applicant to provide a valid e-mail address may delay time-sensitive correspondence.
 - Grant programs have limited funds and will terminate upon depletion of program funding. The APCD will honor projects that have been contracted but is under no obligation to honor applications prior to contracting.
 - The APCD will issue IRS form 1099 to grant recipients as required by law. It is the grant recipient's responsibility to determine their tax liability associated with their participation in the grant program.
 - I will deliver the old equipment specified in this application to an APCD-approved salvage yard to be permanently removed from service and destroyed within 14 days of the delivery of the new replacement equipment.
- ❖ I have reviewed the information contained in this application and all attachments. I certify under penalty of perjury that the information contained in this application, including all attachments and the following statements, is complete, accurate and correct:
 - The new or replacement equipment will be of the same type and be used for essentially the same work as the old equipment specified in this application.
 - At least 75% of the operation of the old equipment over the past 24 months has been in California.
 - If the proposed project has been or may be considered for funding by any air district, the ARB, or any other public agency, then I have disclosed the specifics to the APCD.
 - The applicant entity is in compliance and will remain in compliance with all applicable federal, state, and local laws, air quality rules and regulations, and the applicant entity does not have any outstanding/unresolved/unpaid Notices of Violation (NOV) or citations for violations of any federal, state or local air quality regulation.
 - I have the legal authority to apply for incentive funding for the entity described in this application.
- ❖ I agree to the above statements by signing below.
