SUBJECT: Provisional Approval of California Department of Parks and Recreation's 2026 Annual Report and Work Plan in Response to Stipulated Order of Abatement Number 17-01

Dear Sarah Miggins:

Thank you for submitting a revised Provisional Final 2026 Annual Report and Work Plan (ARWP) dated September 23, 2026, as required by Stipulated Order of Abatement Number 17-01 (SOA). The Scientific Advisory Group (SAG) submitted its review of this draft on October 4, 2026. We are provisionally approving this plan as it adequately addresses our comments on the initial draft ARWP, as well as those of the SAG.

We have scheduled the public workshop for the ARWP to occur during the San Luis Obispo County Air Pollution Control District's (APCD) Hearing Board's annual SOA information update meeting on October 14, 2026. The meeting will be held in person at the San Luis Obispo County Board of Supervisors Chambers located at 1055 Monterey Street in San Luis Obispo. The format for the workshop portion of the meeting will include a presentation of the ARWP by State Parks, and presentation on the adequacy of the ARWP and effectiveness of the mitigation by the SAG and/or APCD. See enclosed notice.

After considering public comment received at the workshop, the APCD's Air Pollution Control Officer will make a final decision on the ARWP. Approval would likely be conditional; the conditions of the final approval may include:

- If the Plover Exclosure area, in whole or in part, is reopened to public vehicular access, State Parks shall simultaneously implement District-approved dust controls sufficient to offset the resulting increase in emissions. If feasible, a final set of PI-SWRL measurements should be taken in the area before it is reopened.

Feel free to contact me with any questions.

Sincerely,
