

February 1, 2019

Mr. Gary Willey, Air Pollution Control Officer  
San Luis Obispo County Air Pollution Control District  
433 Roberto Court  
San Luis Obispo, CA 93401

**Subject: Oceano Dunes SVRA Preliminary Concept Draft Particulate Matter Reduction Plan**

Dear Mr. Willey,

Attached to this letter please find the 2019 Preliminary Concept Draft Particulate Matter Reduction Plan (PMRP). This PMRP is being submitted in compliance with the San Luis Obispo County Air Pollution Control District Hearing Board Stipulated Order of Abatement (SOA) Case No. 17-01.

Development of this PMRP was informed through coordination with the Science Advisory Group (SAG) formed through the SOA. Specifically, the SAG participated in;

- Development of new additional air quality and meteorological monitoring protocols,
- Review of effectiveness of proposed PMRP dust control measures,
- Development of vegetation planning analytics,
- Review and adoption of the Lagrangian Stochastic Dispersion Model developed by Desert Research Institute and required by the SOA, and
- Conceptual location and development of a continuous foredune structure as described in the SOA.

The chair of the SAG will receive a carbon copy of this cover letter plus the PMRP to facilitate the SAG critical analysis of the PMRP required by the SOA.

The California Department of Parks and Recreation is thankful for your review of this document and your continued efforts to improve regional air quality.

Sincerely,

Dan Canfield, Acting Deputy Director OHMVR Division  
California Department of Parks and Recreation

cc. William Nickling, Ph.D., Chair Science Advisory Group
