Subject: [EXT]Air Pollution Control District's Hearing Board

ATTENTION: This email originated from outside the County's network. Use caution when opening attachments or links.

Good morning:

As a resident of CA living on the Nipomo Mesa. I request the following be given consideration:

*Since the Stipulated Order of Abatement was agreed to by State Parks and the Air Pollution Control District in 2019, some progress has been made toward meeting the SOA goals, but not enough.

* The APCO, Mr. Willey needs to get the abatement process on track so that the SOA goal will be attained by December 2023.

* It is clear in the 2021 report that the number of acres installed to date and proposed for 2022 will not be enough to reach a 50% emissions reduction. Section 3.2.3 on page 3-21 shows 189.6 **more** acres of dust controls will be needed in 2023. A portion of those acres should be installed in 2022 so the remainder is no more than 140 acres for 2023.

* If the APCO fails to determine that the draft Work Plan is not approvable (i.e., the proposed mitigation is plainly inadequate) and fails to impose conditions on the draft Work Plan to ensure that mitigation will be adequate to achieve the SOA's requirements, we request that the Hearing Board exercise its authority under Paragraph 12 of the Modified Order to convene a public hearing to review State Parks' progress and potentially revoke (and modify) the APCO's approval actions.

Thank you!

Stanley H. Gitler
