

Industrial monitoring

Monitor & Control Your EV Network

Origin: Germany 🇩🇪 - Pak 🇵🇰

Self Owned: PAK 🇵🇰

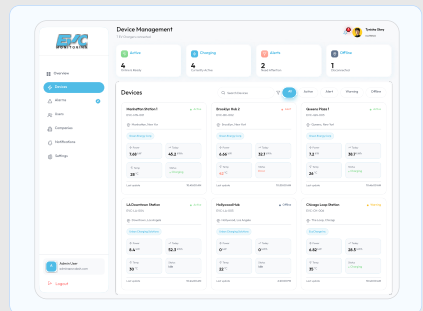

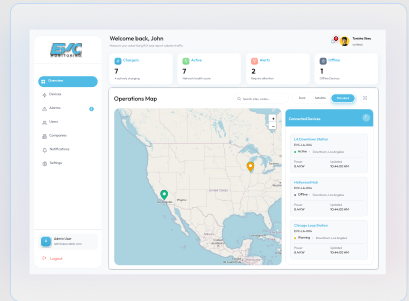

Category: Industrial Monitoring System

Overview:

Advanced electronic volume correction system ensuring precise gas measurement and real-time monitoring.

Key Features:

- Real-time volume correction
- Temperature & pressure compensation
- Remote telemetry integration
- Industrial compliance standards
- Cloud dashboard connectivity
- Multi-interface communication support
- Sensor backup and auto fallback
- Secure user access control
