Competence in Instruments
MADE IN GERMANY

01 Testimonials

„I am using the I'Motion set for about a year. It is working perfectly with 6/0-7/0 threads. Thanks to it's small head and precize lock, I can work with it gently, futhermore, it is extremely rare to tear the thread, owing to it's rounded, smooth shape. It fits easily into narrow places.

PERFECT CHOICE

not only for periodontal plastic microsurgeries!

Dr. David Botond

Ustomed Instruments are well established in my clinic for many years. Instruments for precise surgery require high quality standard of production. Combination of

GERMAN QUALITY

with reasonable pricing is my choice.

Dr. Krzysztof Chmielewski

Member of the German Dental Manufacturers (VDDI)

Certified by DQS according to:
DIN EN ISO 13485
DIN EN ISO 9001
93/42/EWG Appendix II

Competence in Instruments
MADE IN GERMANY

I have worked with USTOMED for a number of years. I can truly say they are the one company that thrives on innovation of high quality surgical instruments. It has been a

PLEASURE TO WORK

and innovate along side them.

Dr. Howard Gluckman

I appreciate the ergonomic and lightweight design of these instruments providing a precise and

CONTROLLED HANDLING

even during long surgeries.

Prof. Dr. Adrian Kasaj, DDS, MSc, PhD

Ustomed is a company with very lean structures and hierarchies and therefore

INNOVATIONS CAN BE REALIZED

straight forward and reliably.

Dr. Dr. Markus Schlee

02 Approved by

Dr. David Botond

Dr. Hangyási Dávid Botond received his Doctorate of Dental Medicine in 2007 at the University of Szeged, Faculty of Dentistry. He completed his postgraduate training and earned the degree of Specialist in Periodontology. He runs a Private Practice in Hungary (Hódmezővásárhely) and he is also a part time lecturer at the Department of Periodontology at the University of Szeged since 2007. Between 2013 and 2014, he temporarily filled the position of the Acting Head of Department of Periodontology. Since 2016, Dr. Hangyási is the Academic Contributor at University of Szeged. He is providing numerous international and national lectures and courses in the field of Periodontology and Implant Dentistry. His fields of interest are non-surgical periodontal therapy, periodontal plastic surgery and hard- and soft tissue management in Dental Implantology.

ULTRA-LIGHT MICRO INSTRUMENTS

the new Benchmark in Surgery

04 Instruments

- an exceptional new handle design
- made out of stainless steel, carbon coated
- even lighter than titanium

I`MOTION
Micro-Scissors, 18cm, curved

Order Number
05-803-180

Long, slim and curved blades for precise deepitalization of the interdental papilla.

I`MOTION
Micro-Forceps, Cooley, 18cm, straight

Order Number
09-280-180

Specially rounded teeth for more atraumatic grip.

I`MOTION

Micro-Needleholder, 18cm, straight

Order Number
20-752-180

Very thin and rounded tungsten coated working parts for 6/0 - 7/0 and small needles.

I`MOTION

Micro-Needleholder, 18cm, curved

Order Number
20-753-180

Very thin and rounded tungsten coated working parts for 6/0 - 7/0 and small needles.

- promising an extraordinary handling
- for all microsurgical indications

1/1

Mucogingival Esthetic

Mucogingival esthetic surgery is dedicated to the treatment of mucogingival esthetic alterations. These may be caused by gingival recession, often in association with abrasion and/or root caries or, conversely, altered passive eruption. The aims of mucogingival esthetic surgery may also be to increase gingival width and height around prostheses or implants and to fill out edentulous ridges.
