- Hair restoration procedures
- Thinning hair
- Post hair transplantation support
- Scalp scars
- Reconstructive cranial surgery support

Skin / Wounds / Scars

- Chronic wounds
- Diabetic foot ulcers
- Burns Surgical scars
- Traumatic scars
- Stretch marks
- Ulcers
- Skin quality improvement

Brain / Neurology

- Endonasal skull surgery
- Dural closure support
- Peripheral nerve procedures
- Applications investigated for neuropathic conditions

Eyes

- Dry eye management using autologous blood-derived eye drops
- Ocular surface disorders
- Corneal support Eyelid and periocular tissue support

Musculoskeletal System

Joints • Spine • Tendons • Muscles • Ligaments • Hand • Foot

- Osteoarthritis & joint discomfort
- Inflammatory and cartilage-related conditions
- Lower back and facet joint conditions
- Tendon, muscle and ligament injuries
- Achilles, patellar, shoulder, hamstring and groin tendon conditions
- Tennis elbow & golfer's elbow
- Muscle injuries and tendinopathies
- Plantar fasciitis
- Hand rejuvenation procedures

Nose / ENT

- Rhinoplasty / nose surgery
- Nasal mucosa support
- Crusts and chronic mucosal lesions
- Tympanic membrane procedures
- Ear tissue support
- Throat and mucosal support
- Olfactory region support

Breast / Thorax

- Post-surgical scars
- Soft tissue support
- Supportive skin recovery following radiation therapy

Mouth / Jaw / Dentistry

- Tooth extraction sites
- Dental implants
- Bone augmentation procedures
- Sinus lift procedures
- Gingival tissue support
- Periodontal procedures Jaw bone support

Abdomen

- Surgical scars Stretch marks
- Chronic wounds
- Skin quality improvement

Intimate Zone / Gynaecology

- Vaginal dryness
- Vaginal tissue support
- Lichen sclerosis
- Scar management
- Vaginal atrophy
- Female intimate wellness procedures

Urology / Men

- Erectile dysfunction-related applications under investigation
- Peyronie's disease-related applications under investigation
- Post-procedural tissue support
