

LEARNING INSIDE OUT

Vocvo,
Leerwinkel
West-Vlaanderen
& FOD Justitie

The ESF- project Learning Inside Out (LIO) makes the service of the Learning Shop West-Flanders accessible for detainees in 3 prisons in Flanders (Belgium).

The learning shop helps detainees to find a better suitable position on the labour market, through the service of individual learning path coaching. This way they have better chances for re-integration after imprisonment.

The learning shop offers a service of guidance and orientation on adult education. The focus is on individual counselling and setting up a learning path.

This service also exist outside the prison, that's why the counseling can continue outside the prison walls.

Since the start of the project in

the Learning Shop helped more than

200 detainees

The project won the title of **ESF ambassador 2018**

The project is a realisation of partnership between VOCVO, the Learning Shop West-Flanders and the Federal Justice Department.

The project is funded by the European Social Fund (ESF) and the province West-Flanders.
