

PUNCH POWERTRAIN SOLAR TEAM

MARKETING

THE PROJECT:

The objective of the project is to build the eighth Belgian solar car and participate in the Bridgestone World Solar Challenge. You will have to build a competitive solar car to beat the best universities of technology in the world. You will go through the process of designing, building, testing and racing a race car together with a group of ambitious students. You will work together with numerous companies to develop new innovations. This project will help you become a state of the art engineer!

THE FUNCTION:

Sponsorships are one of the key-aspects of the project. You will have to find dedicated companies that want to help you achieve your goal of building a solar car. To give you an idea, the net worth of the project is 1.5 million euros of which 40% is procured in liquid assets. Raising this cash budget is your main goal but you will also help the rest of the team to stay in contact with their companies.

Next to finding money there are some other tasks that are divided in the marketing department:

Finance

You will be responsible for the budget and the team's accounting. You will have the final call in all expenses.

Events

Organizing all events of the Solar Team like the Solar Tour, network events, the Solar Olympics and the car launch.

Logistics

You will be responsible for moving the project from Belgium to Australia and through the Australian outback.
