INNOPTUS SOLAR TEAM

THE PROJECT

We contribute to the future of mobility. Innovation has always been our cornerstone to create the best solar car in the world. This year, we are looking for pioneers to challenge the status quo and bring our top-notch solar car to the next level. You will go through the whole process of designing, producing, testing and racing, together with a group of ambitious and motivated students. With numerous companies, you will develop new innovations to further improve the most efficient solar car. In the end, you and your team will compete against universities from all over the world to compete for the first place in an international race in 2026. This project will help you become a state-of-the-art engineer!

THE FUNCTION

It is quite a logistical challenge to get a solar car, a workshop and supporting material beyond the International Customs. You are technically aware of all work and production materials, camping equipment and utilities that are used. A structured approach is required and will save a lot of time during the race preparation phase. This is also a function that should not be underestimated during the race itself! In addition, the Solar Team is often on the road to partners and organizes events. Also here there is a lot of logistics involved. In short, you are a central point of contact within the team to handle all kinds of matters smoothly to run smoothly, both technically and support. This function can be combined with a marketing function within the team, such as Business Relations, External Relations,

YOUR PROFILE

- Communicatively strong, structured, strict and entrepreneurial
- Motivated teamplayer and leader figure
- Creative, out-of-the-box mindset
- All-round interests, both technical and supportive
- High degree of independence
- Bachelor's or master's degree in engineering technology, (bio-)engineering sciences or business engineering
- Enthusiast to put a lot of time and effort in this project

OUR OFFER

- A project full of experiences you don't get in your normal studies
- Experiencing a real engineering project and its different phases
- An extensive network and collaboration with leading companies in the industry
- A group of friends and an international racing adventure to remember
- The experience of a lifetime and so much more!
