

## EVENTS

### INNOPTUS SOLAR TEAM

### THE PROJECT

The goal of the project is to build the twelfth Belgian solar car. With this car, you will participate in the world championship for solar cars in Australia, the Bridgestone World Solar Challenge 2027. You will go through the whole process of designing, producing, testing and racing, together with a group of ambitious and motivated students. With numerous companies, you will develop new innovations to build the most efficient solar car. In the end, you and your team will compete against universities from all over the world to compete for the first place. This project will help you become a state-of-the-art engineer!

### THE FUNCTION

Events fall under the marketing department, an indispensable element within any organization. To build a car, a lot of resources are needed, both materially and financially. Finding and maintaining sponsors is vital. Visibility of the Solar Team is the way to give partners the necessary returns and promote the goals of the project to the outside world. Organizing various events are under your responsibility. Just think of partner events, the vehicle presentations, the Solar Olympiad and hopefully a victory party too! Events is a position that you can combine with another marketing function such as Business Relations, External Relations, Finance or Logistics.

### YOUR PROFILE

- A professional, mature and entrepreneurial attitude
- A motivated team player with strong communication skills
- Eye for detail and a high quality norm
- A creative, out-of-the-box mindset
- High degree of independence and professionalism
- Bachelor's/Master's degree
- Ready to put a lot of time and effort into this project!

### OUR OFFER

- A project full of experiences you don't get in your normal studies
- Experiencing a real engineering project from start to end
- Being in contact and cooperating with the largest companies in the industry
- A group of friends and an international racing adventure to remember
- The experience of a lifetime and so much more!
