

## FINANCE

### INNOPTUS SOLAR TEAM

#### THE PROJECT

Join the team building Belgium's 12th solar car! Are you looking for an experience of a lifetime? A project where you don't just sit in lectures, but build something from the ground up and see it come to life?

As part of the Innoptus Solar Team, you work with a group of ambitious and motivated students to build our best solar car yet and compete at the Bridgestone World Solar Challenge 2027 in Australia; the world championship for solar cars. You go through the entire process: designing, producing, testing and racing. Together with numerous companies, you develop new innovations to build the most efficient solar car possible. In the end, you and your team line up against universities from all over the world and race for the world title.

This project will push you technically and personally – and help you grow faster than you could even imagine!

Interested? Apply on our website: <https://www.solarteam.be/en/recruitment>

#### THE FUNCTION

In order to win a world championship, it is important to have a good structure in your team and you need to know how to handle money. This is where finance comes into play. All resources acquired by Business Relations must also be managed. Finance is about more than just numbers and Excel sheets. You help shape the team's financial strategy and ensure that every decision, big or small, fits within a solid financial framework. Through risk analysis and well-founded advice, you determine what's feasible and what's not. You bridge the gap between numbers and strategy, making sure every team member understands the financial reasoning behind key choices. In doing so, you contribute to sustainable, well-informed decisions that move the team closer to its goals.

You are responsible for drawing up a budget, keeping the accounts and all financial decisions made within the team. Furthermore, you stay informed of the cash flow and anticipate what income and expenditure will be expected in the coming months. **Finance is a function that you share with another marketing task such as Business Relations, External Relations, Events or Logistics.**

#### YOUR PROFILE

- Communicatively strong, structured, strict and entrepreneurial
- Motivated teamplayer and leader figure
- Strong feeling for responsibility
- All-round interests, both technical and supportive
- High degree of independence and professionalism
- Bachelor's/Master's degree
- Prepared to put a lot of time and effort in this project

#### OUR OFFER

- A project full of experiences you don't get in your normal studies
- Experiencing a real engineering project and its different phases
- Networking and collaborating with the largest companies in the industry
- A group of friends and an international racing adventure to remember
- The experience of a lifetime and so much more!
