- Consultation or travel cost+consultation (if on location) *
- Set-up mobile practice (if on location) **
- Sedation ***
- Dental check-up
- Odontoplasty ****

The final invoice will of course depend on the findings and the effective treatments required.

More information on educational materials, food supplements or equine dentistry equipment developed by Equide can be found on our website www.equide.be.

*Visit fee >20km based on distance, travel time and route:

When calculating the visit fee >20km, congestion sensitivity of the route is taken into account. To this end, average travel times via Google Traffic will be used and 0.65€/km driven + hourly rate of 80€/hr (veterinarian + assistant) travel time will be used as a standard. When horses of different owners need to be treated at the same time and location, the travel costs can be divided over the number of owners. For larger journeys, it is best to contact us in advance, if visits can be combined, this will have a favorable effect on the visit fee. Please keep in mind that the visit fee may be different from previous appointments depending on traffic and the route of the whole day of your appointment.

Example 1 : Appointment at 9am, centre of Antwerp: 119km there and back, traffic jam, small city centre streets. Normally would take 1h36min but in these conditions: 2h15min:

- €80/h travel time = €180
- €0,65/km gas costs = €77,35
- TOTAL = €257,35
-

Example 2: Appointment at 11am in Herent: 85km there and back, highway, no traffic. Travel time 1h15min:

- €80/h travel time = €100
- €0,65/km gas costs = €55,25
- TOTAL = €155,25

Example 3: Appointment at 2pm in Beringen for 3 different owners: 11km only, no traffic, shared travel fees:

- <20 km = €59 (fixed cost)
- Shared between 3 owners = €19.66 per owner

Unfortunately, the bigger the distance, the bigger the cost for the treatment of your horse's teeth. You can avoid or limit these costs! Make a group appointment or even better, an appointment at our clinic in Schaffen (Diest). In the latter case, you only pay € 34 for a consultation (1 horse), no 'set-up mobile practice' fee and you & your horse enjoy the best setting possible!

** Equide is equipped with one of the most advanced mobile practices in the Benelux. This allows many treatments to be carried out at home. However, setting up the mobile practice requires time and maintenance of the installation. For this purpose, an amount of €34,5 is charged per physical address where the setting is set up.

*** The cost of sedation depends on a number of variables such as your horse's weight, character and the extent and duration of the procedure to be performed. The reference price is for a standard procedure on a standard riding horse.

**** Odontoplasty is understood to mean the correction of tooth length, position and shape, as well as the return of excessive enamel. The aim is to achieve the most functional and durable teeth possible with the least possible loss of dental tissue.

***** More information about this treatment and an indication of the rates can be requested at info@equide.be.

All services are subject to the General Terms and Conditions available at www.equide.be.

Services provided by the veterinary practice Equide are payable in cash or by invoice.

All rates are incl. 21% VAT (unless mentioned otherwise).

Equide reserves the right to change prices at any time.
