

Care guide

Please handle your sets with care. For most delicates we recommend a lukewarm hand wash, using a gentle detergent then rinse in cold water. Some garments specify dry clean only.

Do not leave our MOON sets to soak and do not wring, rub or spin dry your items. Lightly squeeze the lingerie, pop it on a dry towel, roll it up, and press softly to release any additional water. Hang products to dry or allow to dry flat. Our sets should be ironed inside out.

MOON tip: for extra softness, add a few drops of distilled white vinegar during the rinsing process

MOON tip: use a toothbrush to get out stubborn stains
