

Club of Lviv:

One example is a mother with her 8-year-old twin boys.

Nataliya Preys, the president of ZC Lviv and an ophthalmologist sent this story of three of her patients.

The mother and her two twin boys of 8 were almost blind when they came to the hospital where they got a first help surgery, Nataliya sent them to a hospital in Lublin/Poland, where a specialist, Prof. Robert Rejda took care of them. They got 300 € each out of our donations to support them in Poland.

This were the first picture, Nataliya sent:

They came from Severodonetsk in the Donetsk region, that Russia wants to insert to its territory.

The train station of Lviv.
The mother could not walk
and hardly see.

The boys at the train station in Lviv

In the picture on the right you can see Nataliya with the mother and one child.

Here is the mother with her boys after surgery. They could recover, but each boy lost one eye.

A first smile and the hope they will have a Good childhood and overcome the trauma.
