RENTAL CONTRACT

REF:

MACHINES AND GENERATORS for welding HDPE-pipes.

1. The quantity and description of the rented machines is clearly mentioned on the delivery note, supplied and signed during the collection of the machines.
2. The lessee is obligated to check the condition and operation of the machines when they are collected in our ware house, Antwerpsesteenweg 275 at Mechelen, Belgium.
3. The minimum rental period is 1 day.
4. Rental period needs to be fixed before the renting starts. When client wants to use the machine for a longer period, he has to inform IWMC 1 week in front.
5. The rental period starts when the machines are collected or delivered and the delivery note together with rental contract has been signed.
6. The rental period ends when the machines are back in our warehouse and the collection note has been signed by both parties.
7. When the rental period is exceeded, automatically a new complete renting day will be invoiced.
8. A deposit, as mentioned in the offer, has to be paid before the machines can be collected except when other agreements has been made during the offer.
9. The deposit will be transferred back to the client, after final positive checkup of the machines towards condition and operations. Transfer will be reduced with the rental invoice amount.
10. In case of theft or damage, machines will be fully invoiced towards the client.
11. The rental fee, deposit and the different types of machines are always open for modifications done by IWMC. These modifications are always detailed in the offer.
12. The lessee will only provide the machines towards trained employees and operators with ascertain certification and knowledge on the use of generators and HDPE welding equipment..
13. All damages to the welding equipment, tools and generators will be fully invoiced to the lessee.
14. Rental fees have to be paid in front of the rental period except when IWMC provides different agreement with the lessee.
