PERFECT FOR HOME AND OFFICE, BLUSODA IS COMPACT AND DELIVERS PROFESSIONAL-LEVEL PERFORMANCE.

Powerful, compact, entirely made of stainless steel:
the perfect choice for every home and office.

With its functional design, Blusoda delivers great performance in a small space: it can dispense cold still water, cold sparkling water, at room temperature and hot water up to 85°C (HOT version) for the preparation of infusions and teas. To further enhance hygiene and safety, the Touch Free version can reduce bacterial proliferation by 99.999% thanks to the use of Nano Silver Protection.

The MIX version, thanks to the mixer, also dispenses slightly sparkling cold water. The range is completed by the models of BluSoda PLUS 30 and MIX featuring LED dispensing buttons that serve as safety alarms to indicate, for instance, sparkling water run-out. The Cup Rest tray, with a practical adapter, allows the glass to be positioned closer to the dispensing point.

Blusoda is also available in the Touch Free version with Nano Silver Pipe and Nano Silver Protection treatment as standard. Just place your finger 1.5 cm away from the panel for a dispensing in maximum safety.

In the Hot version, the LED buttons also provide safety warnings on the status of the boiler. A safety device prevents accidental dispensing of hot water.

Two different design cabinets are also available, created with style and functionality for the 30 and 45 Lt models. They are equipped with internal brackets for the installation of filters and CO₂ cylinder as well as a drain for the drip tray. The 5 Lt tank with filling alarm is optionally available as an OPTIONAL EXTRA.

Natural Gas

An environmentally-friendly choice, with the benefit of a more silent compressor.

The dispensing area is 27 cm tall in the 30 Lt/h version, and a generous 33 cm in the 45 Lt/h version, enabling the placement of bottles and pitchers.

In the Fizz version, BluSoda can be equipped with Portion Control technology (volumetric portioning), which enables to customize water portions for an even more convenient dispensing.

Thanks to its stylish and professional design, Blusoda enhances any domestic or workplace setting.
