Logomark

The first way we signify the presence of Snapchat is with our logomark. It’s the clearest way we can identify our company visually.

Clearspace
In order to preserve the integrity of the logomark, it is important that no other logos, type or other graphic elements infringe on its space. The minimum clearspace around the logomark is equivalent to 1/3 of the width of the logomark.

Minimum Size
The minimum size the logomark may be used for print applications is .4” (10mm) wide. For digital applications, the minimum size is 45 pixels wide.

Logomark Artwork
Do not attempt to redraw or recreate any elements of the logomark. Please use the download-able digital files of the artwork.
