

COOKIE POLICY

Last updated July 17, 2025

This Cookie Policy explains how Solitude ventures ("**Company**," "**we**," "**us**," and "**our**") uses cookies and similar technologies to recognize you when you visit our website at <https://www.solitude.ai> ("**Website**"). It explains what these technologies are and why we use them, as well as your rights to control our use of them.

When you visit or log into our website, we use cookies and similar technologies to collect certain information about your visit. This includes (i) Usage Data (Information about how you use our site, such as pages visited, time spent on pages, and links clicked.) (ii) Device Information (Details about the device you use to access our site, including IP address, browser type, and operating system.) and (iii) Personal Data (If you provide it, we may collect information such as your email address, phone number, or other contact details). We may also combine this information collected automatically with other data we receive from third-party sources, such as data providers and marketing partners, to create a more complete profile of you. We then use this profile to communicate with you, including providing personalized advertising and promotional content based on your interests and browsing behavior. You may opt out of this at any time.

In some cases we may use cookies to collect personal information, or that becomes personal information if we combine it with other information.

What are cookies?

Cookies are small data files that are placed on your computer or mobile device when you visit a website. Cookies are widely used by website owners in order to make their websites work, or to work more efficiently, as well as to provide reporting information.

Cookies set by the website owner (in this case, Solitude ventures) are called "first-party cookies." Cookies set by parties other than the website owner are called "third-party cookies." Third-party cookies enable third-party features or functionality to be provided on or through the website (e.g., advertising, interactive content, and analytics). The parties that set these third-party cookies can recognize your computer both when it visits the website in question and also when it visits certain other websites.

Why do we use cookies?

We use first- and third-party cookies for several reasons. Some cookies are required for technical reasons in order for our Website to operate, and we refer to these as "essential" or "strictly necessary" cookies. Other cookies also enable us to track and target the interests of our users to enhance the experience on our Online Properties. Third parties serve cookies through our Website for advertising, analytics, and other purposes. This is described in more detail below.

How can I control cookies?

You have the right to decide whether to accept or reject cookies. You can exercise your cookie rights by setting your preferences in the Cookie Consent Manager. The Cookie Consent Manager allows you to select which categories of cookies you accept or reject. Essential cookies cannot be rejected as they are strictly necessary to provide you with services.

The Cookie Consent Manager can be found in the notification banner and on our Website. If you choose to reject cookies, you may still use our Website though your access to some functionality and areas of our Website may be restricted. You may also set or amend your web browser controls to accept or refuse cookies.

The specific types of first- and third-party cookies served through our Website and the purposes they perform are described in the table below (please note that the specific cookies served may vary depending on the specific Online Properties you visit):

Essential website cookies:

These cookies are strictly necessary to provide you with services available through our Website and to use some of its features, such as access to secure areas.

Name: __cf_bm

Purpose: Cloudflare places the cookie on end-user devices that access customer sites protected by Bot Management or Bot Fight Mode.
