

connected

Save energy from anywhere, easily.

The iComfort Wi-Fi® thermostat gives you total remote comfort control, and that means you can easily manage your home's temperature and energy efficiency—from anywhere. For added ease and convenience, the iComfort Wi-Fi thermostat includes features like One-Touch Away Mode, which allows you to save energy when no one's home. The thermostat also keeps you updated on the weather, so you can be prepared for any cold snap or heat wave that comes your way. All with a simple touch or a click.

So much more than a thermostat. And far less complicated.

Lennox' innovative programmable thermostat is also easy to use. The intuitive touchscreen makes temperature adjustment as simple as a single finger tap.

Set the temp from the sofa? There's an app for that!

Thanks to an app designed exclusively for the iComfort Wi-Fi, there's more than one way to set your thermostat. When connected to your home's wireless network, it allows you to change the temperature using your smartphone, tablet or laptop. So, you can make programming adjustments away from home.

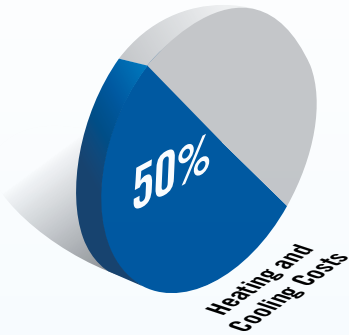

a touch connects you to savings and

comfort

Lennox innovation, at your command.

Heating and cooling can account for more than **50% of a home's total energy use**.^{*} Considering a monthly utility bill can be as high as a house payment, this is one expense you may not be feeling too good about.

The iComfort Wi-Fi thermostat offers a comfortable solution for saving energy and money. It goes degrees beyond what's possible with a standard thermostat.

U.S. Household Energy Consumption

Lennox[®]
innovation
never felt so
good. Or so
convenient.

So simple. So smart. So comfortable.®

The center of everything.

When you set out to build a revolutionary thermostat, you have to start with smart ideas. With the iComfort Wi-Fi®, you get a smart thermostat that is also easy to use. When paired with premium Lennox® equipment, it effortlessly coordinates communication between every component of the system, optimizing energy use while maintaining your temperature with an accuracy of 0.5 degree. So you enjoy the highest level of comfort Lennox has to offer.

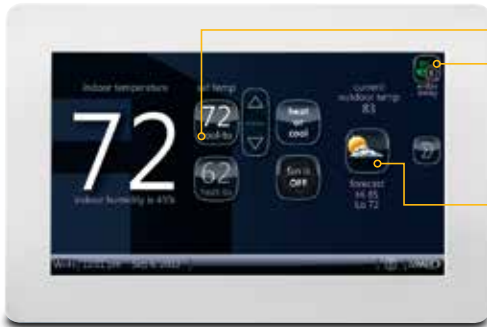

Complete comfort never looked so good.

By adding a skin to your iComfort Wi-Fi, you can coordinate it with the décor in any room. Skins are available in many colors, patterns and designs. You can also customize the screensaver by uploading your own photo.

Get to know the thermostat that knows innovation, convenience and comfort inside and out.

Convenience

Touchscreen Operation: The bright, clear screen is easy to read in any light, and easy to operate with just one finger.

One-Touch Away Mode: One touch or remote click will put your system into One-Touch Away Mode, reducing system use and energy consumption when no one is home.

Weather Data: The iComfort Wi-Fi can display live weather alerts and a five-day forecast, so you're always prepared for what's happening outside.

Alerts and Reminders: Not only will your iComfort Wi-Fi monitor itself with advanced diagnostics, but it can also send you and your dealer alerts and emails if the system needs service or maintenance.

Remote Access: Once connected to the Cloud through your wireless network, your iComfort Wi-Fi can be adjusted from anywhere in the world via your smartphone, tablet, laptop or other web-enabled device.

Innovation

Smart Energy Use:

Seasonal schedules save energy all year long, while One-Touch Away Mode helps your system use less when no one is home.

App-Enabled:

Free to download for Apple and Android devices, the iComfort App is like a touchscreen window into your home comfort. Whether you're on the road or on the couch, simply start the app to check and change your temperature with only a finger.

Comfort

Perfect Air:

The iComfort Wi-Fi works with your Lennox® system to carefully control both temperature and humidity, filling your home with perfectly comfortable air.

Peace of Mind:

Like all Lennox equipment, the iComfort Wi-Fi is built to deliver more, and built to last. So you'll enjoy reliable comfort season after season.

Precise Control:

For the ultimate in home comfort, pair the iComfort Wi-Fi thermostat with iHarmony Zoning to customize the temperature in any area of your home. Zoning not only helps eliminate hot and cold spots, but also helps you save money on utility bills by ensuring that you are not heating or cooling seldom-used areas of your home, like guest rooms or media rooms.

Your online interface to perfect air.

The iComfort Dashboard

This powerful website is the central command for your iComfort Wi-Fi®, giving you access to the most detailed features and information in one convenient location. Log on to www.myicomfort.com/dashboard and you'll have everything at your fingertips.

My Account – During the installation of your iComfort Wi-Fi, you'll create an online account to help manage and control every iComfort Wi-Fi you own. On the My Account screen, you'll have the ability to add and edit personal information and dealer information.

Home(s) – This screen allows you to select which of your installed iComfort Wi-Fis you'd like to monitor or adjust, while giving you the ability to add additional iComfort Wi-Fi thermostats for different rooms or additional homes.

Current Indoor Temperature and Humidity – Check and adjust either setting with just a click or touch.

Away Mode – Easily sets your iComfort Wi-Fi to an energy-saving One-Touch Away Mode, so you don't waste energy heating and cooling an empty home.

Program – Set your iComfort Wi-Fi to a predefined schedule based on the season, or control the temperature manually.

Forecast – Check the five-day weather forecast.

Skins – Change the skin to a pattern, design or any color to blend in with your decor.

System – View or edit information about the system to which your iComfort Wi-Fi is connected.

Service Information – Edit information about your dealer, or email your dealer with questions or comments.

Alerts and Reminders – Stay on top of your system status by viewing any alerts or reminders for needed maintenance or service.

We're obsessed with the pursuit of creating perfect air, and doing so with absolute efficiency.

Since 1895, Lennox has been on a continuous quest to reinvent home comfort. Perfect air is our purpose and our obsession. Today, that pursuit takes shape in many innovative ways: precise and energy-efficient air conditioners, the quietest high-efficiency furnaces, heat pumps, thermostats, air handlers, air cleaners, small-space comfort systems, boilers and more.

Peace-of-mind protection

The iComfort Wi-Fi thermostat comes with a five-year limited warranty.

Dealers you can count on

You can trust Lennox Dealers to design the right system for your home, install it properly and help keep it running. Because Lennox has more than 6,000 dealers throughout North America, you can rest assured there's one near you.

The Ultimate Comfort System™

Meet the most advanced, most efficient, most capable Lennox heating and air-conditioning system ever created. It's a triumph of Lennox innovation, comprised of the most advanced technology we've ever assembled into one system.

The iComfort Wi-Fi® thermostat connects you to ultimate possibilities.

Lennox' commitment to innovation has never been more obvious. By pairing the ease and convenience of iComfort Wi-Fi with the XC25 air conditioner, SLP98V furnace, iHarmony® zoning and PureAir™ air purification, you create a system without parallel.

XC25 Air Conditioner

Lennox' most precise and efficient air conditioner, and the first air conditioner that can change its output in increments of 1%.

SLP98V Gas Furnace

The best furnace in the Lennox lineup, with the ability to modulate, or adjust, its heat output to any point between 35% and 100%.

PureAir Air Purification System

Combining hospital-grade filtration and exclusive UVA-light technology, PureAir cleans the air in your home better than any other single system you can buy.

iComfort Wi-Fi Thermostat

A truly innovative temperature command center that allows advanced scheduling, energy-saving One Touch Away Mode and remote access from anywhere in the world via laptop, smartphone or tablet.

iHarmony Zoning System

Directs heating or cooling to where it's needed, while reducing it in rarely used rooms. It's the best temperature control available for customizing comfort and saving energy in your home.

Innovation never felt so good.®
