Comfort Control with Affordable Convenience

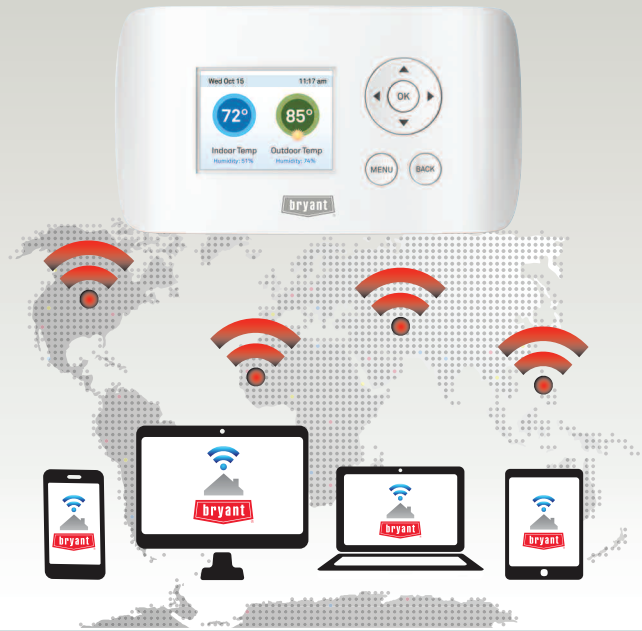

Setting Standards Since 1904

For more than a century, homeowners have associated Bryant® heating and cooling products with the highest standards of indoor comfort. Through focus, commitment and dedication we have consistently met every new challenge head-on and delivered the products to meet or exceed expectations. Today, as homeowners manage their on-the-go lifestyles through personal computers, tablets and smart phones, Bryant makes the connection between comfort and convenience with the Bryant Wi-Fi® thermostat.*

The Bryant Wi-Fi thermostat lets you monitor and control your home's comfort from anywhere in the Internet-connected world. In addition to traditional programming and comfort control, this remarkable thermostat can send routine maintenance reminders, let you know if there might be a problem with your system, track energy usage and more. It's a smart addition to your system as well, offering the ability to maximize efficiency while keeping you comfortable.

Connect On-the-Go

Mobile Control and Comfort

With the Bryant® Wi-Fi® thermostat, you have access to your own personal, secure web portal anywhere an internet connection is available. Using the free downloadable mobile app, you are just a few clicks away from controlling your indoor comfort. While you're home, it's incredibly convenient, giving you a direct connection to your system from your smart phone, tablet or personal computer. And when you're away, it's incredibly comforting, knowing you can receive automated alerts and maintenance reminders or remotely change system settings if conditions at home change. So whether you're on your way home from a long vacation or just a long day at the office, you can adjust the settings of your heating and cooling system so a comfortable environment greets you when you arrive. And while you're away, you can adjust the settings for unexpected weather events like subzero temperatures that may affect your pipes or extreme heat that can put stress on your air conditioner.

Thermostat App**

Smart Performance

It's great to have control, but it's also nice knowing your system can make smart, money-saving decisions on its own. The Bryant® Wi-Fi® thermostat adapts to your home's energy use, your comfort preferences, and weather forecasts to find ways to maximize efficiency while keeping you comfortable. Monthly energy reports provide insights into your home's heating and cooling performance, and help you monitor your energy use. It's never been easier to understand and manage your home energy consumption, right from your personal web portal.

*Wi-Fi is a registered trademark of Wi-Fi Alliance Corporation.

Peace of Mind

To the original owner, the Bryant® Wi-Fi® thermostat is covered by a 5-year parts limited warranty upon timely registration of your new equipment.*

*Warranty period is 3 years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 5-year parts limited warranty. See warranty certificate at bryant.com for complete details and restrictions.

Performance

Easy Setup and Operation

As a standard, on-the-wall comfort control, the Bryant® Wi-Fi® thermostat includes the features you need for easy setup and operation. It starts with a high-resolution display with full-color graphics. Simple push-button controls allow you to quickly set your personalized comfort schedule, adjust indoor temperature and humidity settings, and add a vacation schedule. Once you've set it up, one glance is all you'll need to view the current indoor temperature, your setpoints for heating and cooling, as well as weather conditions.

Connect, Register, Relax

Before using the web-based thermostat portal, you'll need to connect the Bryant® Wi-Fi® thermostat to your home Wi-Fi network. Once connected, you can create your personalized web portal from your internet connected device, and you are ready to create customized weekly comfort schedules, adjust current settings, and access alerts and reminders. For your convenience, a quick start guide is included to assist you with the process. As new features become available, software upgrades will keep your thermostat up-to-date at no additional cost.

Best of all, you can enjoy all of this convenience with a system backed by the company recognized throughout North America for its commitment to customer satisfaction and comfort - Bryant.

Product Features

- 1 FULL COLOR SCREEN**
Vivid graphics provide indoor temperature and humidity, set point, outdoor weather, network signal strength and more with just a glance.
- 2 PUSH BUTTON CONTROL**
Navigation couldn't be easier with our responsive push button controls. The vibrant backlit buttons allow you to quickly adjust your comfort settings.
- 3 REMOTE ACCESS**
Free mobile apps and personalized web portal allow you to control your home system from anywhere you have internet access and an internet connected device.
- 4 SECURE WEB PORTAL**
Go online to set up, manage and adjust system operation. It's a convenient source for system reminders, weather updates, and home energy use reports.
- 5 SMART ELECTRONICS**
This "smart" thermostat monitors your home's energy use, your comfort preferences, and the weather forecasts to make intelligent decisions on efficiency and comfort for your return home.
