Comfort for Life

Daikin is a global leader for indoor comfort, with millions of systems installed throughout the world.

Daikin has been improving the comfort of its customers with exceptional products and services for many generations.

To explore all of our solutions for premium indoor Comfort for Life, visit www.daikinac.com.

Elevate your expectations and get more out of your home's indoor comfort system performance

As you think about the functionality of your home's indoor comfort system, the Daikin brand is ready to help you achieve control, energy efficiency and long-term peace of mind. Take that attention to quality one step further by choosing a Daikin brand energy-efficient ductless split system. We have designed and engineered all of our products to provide years of consistent indoor comfort – delivering you and your family premium *Comfort for Life*.

Bold performance

A better understanding of how people inhabit their living spaces has led to products designed to create indoor environments that help use energy resources more effectively. Daikin LV Series ductless systems feature wall-mounted units with a sophisticated appearance and a flat panel design. The Daikin brand LV Series units provide efficient and economical cooling and heating performance. A Daikin single-split ductless system is ideal for single rooms, enhancements and additions up to 1,460 square feet.*

* Equipment selection should always be based on detailed load calculation performed by a qualified technician.

Smart inverter technology

Integrated with an inverter variable-speed compressor, ductless systems deliver the capacity required to maintain desired room conditions, reducing energy consumption by up to 30% or more (compared to traditional fixed-speed ducted systems). This technology minimizes temperature fluctuations and provides continuous cooling and heating comfort.

Intelligent eye technology

The Daikin brand LV units are equipped with an intelligent eye feature that detects movement and automatically changes to an energy saving mode when movement is not detected for over 20 minutes. Normal operation resumes once movement is detected, ensuring a comfortable experience and offering savings up to 20% in cooling and up to 30% in heating, compared to units without movement detection.

Easy to program

With the ability to program up to four settings per day, the weekly timer allows users to personalize on/off times and temperature settings. Delivering heating and cooling when it is needed most, this feature provides customizable comfort with energy savings.

Individual comfort and control

Daikin remote controls provide individual temperature control at the click of a button. The LV Series split systems are compatible with the Daikin brand ENVi intelligent thermostat. Designed with energy savings performance in mind, this thermostat offers the freedom to access, program and control the system from a smart phone, tablet or computer. Count on a Daikin brand ENVi thermostat to deliver premium *Comfort for Life* to your family for years and years.

Handheld Remote Control

Daikin ENVi

Air purification for comfortable breathing

Includes a washable, mold-resistant air filter as a standard, this pre-filter is impregnated with a safe, colorless and odorless coating, which helps inhibit mold growth. The filter may be easily cleaned with a vacuum cleaner and cool water, providing cleaner air in a reusable, user-friendly device.

COMFORTABLE LIMITED WARRANTY* PROTECTION

*Complete warranty details available from your local dealer or at www.daikinac.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Comfort and Efficiency

When properly installed, this ductless unit provides energy efficiency up to 24.5 SEER and heating season performance up to 12.5 HSPF.

UP TO
24.5 SEER

UP TO
12.5 HSPF

UP TO
15.3 EER

Exceptional heating performance

PREMIUM COMFORT FEATURES:

Energy Efficient – Up to 24.5 SEER, 12.5 HSPF and 15.3 EER for ultra-efficient cooling and heating operation and exceptional savings on utility bills compared to conventional lower-efficiency systems.

Tax Credit and Rebate Qualification – May qualify for federal tax credits, local rebates and utility incentives.

Advanced Filtration – Long life, washable filters help trap microscopic particles, decompose odors and reduce bacteria, viruses and mold.

Wireless Control – Hand held remote features an LCD screen with backlit display, Econo Mode, Powerful Mode, and more.

Ideal solution for:

- Hot or cold rooms
- Rooms with poor air flow
- Renovations and remodeling
- Primary living areas (master bedrooms and living rooms)
- Basements, attics and garages
- New construction

Daikin brand ductless systems are designed to maintain indoor comfort and energy-efficient operation.

ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

ENERGY STAR® and the **ENERGY STAR** mark are registered trademarks owned by the U.S. Environmental Protection Agency. **ENERGY STAR** products are third-party certified by an EPA- recognized Certification Body. Products that earn the **ENERGY STAR** prevent greenhouse gas emissions by meeting strict energy efficiency guidelines set by the U.S. Environmental Protection Agency.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR** criteria. Ask your contractor for details or visit www.energystar.gov.

DAIKIN: THE PREMIUM BRAND INDUSTRY LEADER

Daikin Industries, Ltd. (DIL) is a global Fortune 1000 company which celebrated its 90th anniversary in May 2014. The company is recognized as the largest HVAC (Heating, Ventilating, Air Conditioning) manufacturer in the world. DIL is primarily engaged in developing indoor comfort products, systems and refrigeration products for residential, commercial and industrial applications. Its consistent success is derived, in part, from a focus on innovative, energy-efficient and premium quality indoor climate and comfort management solutions.

Expert reviews from our most important critics

Daikin offers a wide selection of choices for energy-efficient indoor comfort. As a worldwide leader in air conditioning and heating technology, Daikin is also a highly-rated brand. See for yourself at www.daikincomfort.com/reviews.
