

Air Conditioning & Heating

GPC13M PACKAGED AIR CONDITIONER

A COMPACT COOLING MACHINE COUPLED WITH A SMALL FOOTPRINT.

Keep your family in money-saving, efficient indoor comfort for years and years to come. A Goodman® brand GPC13M Packaged Air Conditioner provides easily affordable value. Plus, our extensive product offering ensures that you get the right system for your specific cooling needs.

COMFORT. **SAVINGS.** PERFORMANCE.

ENERGY EFFICIENCY SAVES MONEY AND IMPROVES COOLING COMFORT

Energy efficiency is the key to controlling the cost and comfort of cooling your home or business. Today's minimum efficiency standard as directed by the federal government is 13 SEER (Seasonal Energy Efficiency Ratio). Older installed units in many homes and business may have actual operational efficiencies of 10 SEER or less. Not only does replacing your old unit provide the potential for increased efficiency performance, but you will gain peace of mind knowing that the Goodman folks build the GPC13M Packaged Air Conditioner unit to provide years of reliable comfort and quiet operation.

RELIABILITY AND LONG LIFE

One of the most critical components of a packaged air conditioner is the compressor. That's why the Goodman brand GPC13M Packaged Air Conditioner boasts a high-performance, energy-efficient compressor. It operates in tandem with our highefficiency coil to maximize the operating efficiency and extend the operational life of the unit. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area allowing for an optimal heat transfer process to keep your home or business comfortably cool for many, many years.

IMPRESSIVE FEATURES AND BENEFITS:

GOODMAN® BRAND GPC13M
