The Strength Behind The Brand

Choosing a Heil® oil furnace means more than just selecting a brand. It means selecting a product backed with tremendous assets in design engineering, quality manufacturing, and service support—as well as a

100-year tradition of excellence. We're dedicated to bringing you home comfort products that meet and exceed your expectations for high quality, energy efficiency, and reliability. You can depend on us.

**Depend
On Heil.®**

The Ultimate In Energy Savings

The Heil® line of oil furnaces lets you take advantage of new technology to cut your energy costs. Most older oil furnaces have efficiency ratings as low as 60% to 70% AFUE†. That means that for every dollar you spend on heating, 30 to 40 cents of it disappears right up the chimney! In contrast, these high-efficiency Heil oil furnaces feature up to 86.8% AFUE—making it possible for you to increase your home's heating efficiency and your energy savings. Most of the furnaces in this brochure meet the ENERGY STAR® criteria.

†AFUE stands for Annual Fuel Utilization Efficiency.

Quality Construction Ensures Reliable Operation

High-efficiency, state-of-the-art burners provide a safe, consistent heat source that's ideally matched to the design of the combustion chamber to ensure maximum fuel usage. These Heil oil furnaces feature a stainless steel heat exchanger that provides reliable operation year after year.

Select The Furnace That's Right For You

Our highest efficiency Heil oil furnaces are available in multiposition hi-boy models with upflow, downflow and horizontal flow options. Our lo-boy model is available in an upflow configuration. Most models can be installed in existing chimneys. Most furnaces come prewired for addition of central air conditioning, air cleaners, or humidifiers.

OMV

Comfortable Advantages

The many features and benefits of Heil oil furnaces include:

- **Control Panel** – Permits easy technician access to accessory terminals; prewired for easy add-on of electric air cleaner, central humidifier and air conditioner.
- **Large, External Front Clean-Out** – Provides for easy unit cleaning and maintenance.
- **High-Efficiency Burners** – Provide optimum efficiency and performance when matched to furnace installation. Your dealer can specify which burner best suits your needs.
- **Factory-Installed Test Ports/Sight Glass** – Allow ample access for set-up and service.
- **Variable-Speed ECM Circulation Blower Motor** – Balanced to ensure quiet, efficient air circulation; permanently lubricated to provide optimum service year after year.
- **Heavy-Duty Insulated Steel Cabinet** – Ensures quiet operation.
- **Reduced Clearance** – Allows installation in tight areas.
- **Stainless Steel Heat Exchanger** – Provides reliable operation year after year; backed by a lifetime limited warranty.*

DV-2000™ Direct Venting Option

Most Heil residential oil furnaces can be installed with either traditional chimneys for venting or without a chimney by using the state-of-the art DV-2000™ Direct Venting Option. This can save you money on costly chimney repairs, while adding flexibility to new installations or electric-to-oil conversions. Advantages of the DV-2000 Direct Venting Option include:

- Integrated exhaust and combustion intake
- Use of 100% outside air for combustion
- Safety shutdown system that automatically detects vent blockage and shuts down furnace until vent is clear
- Compact terminal design that propels flue product away from the wall of your home
- Stainless steel construction for long unit life
- Venting approved up to 23 feet
- Ideal for new construction, off-electric conversions, and any application that requires elimination of a conventional chimney

You'll Warm Up To These Warranties

Every Heil® unit is backed by exceptional warranties, including our No Hassle Replacement™ limited warranty*, which gives you a replacement unit if the heat exchanger should fail within the first ten years. You also get up to a 10 year^s parts limited warranty* and a lifetime limited warranty* on the heat exchanger. And don't forget to ask your dealer about HELP® extended service agreements for additional worry-free protection.

*See published warranty for complete details. To learn more about all of these limited warranties, including the No Hassle Replacement limited warranty, go to Heil-HVAC.com.

^sSubject to conditions. Ten year warranty requires timely registration. See detailed additional information on back page and Warranty Certificate at Heil-HVAC.com for complete details.

1-Proper sizing and installation of equipment is critical to achieve optimal performance. Only certain models of oil furnaces meet ENERGY STAR® criteria, and within those models only certain capacities and burners qualify.

2-AFUE stands for Annual Fuel Utilization Efficiency, calculated using Canadian Regulation.

3-AFUE stands for Annual Fuel Utilization Efficiency, calculated using U.S. Regulation.

4-The **No Hassle Replacement™ limited warranty** provides a new equivalent replacement unit should the heat exchanger fail during the No Hassle period. Written authorization from your Heil distributor is required prior to replacing any unit. This warranty is a supplement to the standard product limited warranty. Restrictions apply. Go to Heil-HVAC.com to view the most current and complete Warranty Certificate for further details.

5-Heil oil furnaces carry a **ten (10) year limited warranty on parts** to original homeowner when installed in an owner-occupied single-family residence and properly registered within ninety (90) days after original installation. (See Warranty Certificate for registration instructions. Registration not required in all jurisdictions.) Otherwise, the warranty period is **five (5) years** from the date of installation. Heat exchangers carry longer limited warranty coverage that applies to original homeowners with timely registration. Otherwise, heat exchanger warranties are 10-20 years from date of installation, depending on model. There is a lifetime limited warranty on specific gas furnace stainless steel heat exchangers. Oil furnaces come with a lifetime limited heat exchanger warranty. Check individual listings. Restrictions apply. See Warranty Certificate for details.

All systems tested and listed by the appropriate agencies.
