

predictable

The CBX32MV has a handle on performance.

The air conditioner or heat pump installed outside your home can't work alone. You also need an indoor unit to distribute conditioned air through the ductwork and into each room. The CBX32MV handles that job—and a whole lot more. We've designed the CBX32MV with a **variable speed motor that delivers more consistent temperatures** along with enhanced humidity control. It works quietly and efficiently in both heating and cooling modes, and even helps improve your home's air quality.

So don't let anyone tell you all air handlers are pretty much alike. Fact is the CBX32MV does its job better, making you more comfortable.

less energy and noise; greater

savings

Greater efficiency and savings

The CBX32MV is specifically designed to work with a matched outdoor unit—the air conditioner or heat pump—to deliver optimum performance and maximum energy efficiency. The air handler’s **variable speed motor uses far less energy** than conventional single-speed motors. So your home feels great and you save money, too.

Significantly reduced sound levels

The CBX32MV is built to be quiet. Its variable speed motor ramps up slowly, so there’s no noisy blast of air at start-up. **Low-speed fan operation keeps things quiet, too.** And to further minimize sound, the blower compartment is surrounded by extra-thick insulation.

Uses **2/3** less energy than competitive single-speed models*

CBX32MV

Quiet, efficient, environmentally responsible air handler.

*Compared to air handlers with conventional single-speed blower motors, the CBX32MV’s variable speed motor uses two-thirds less electricity.

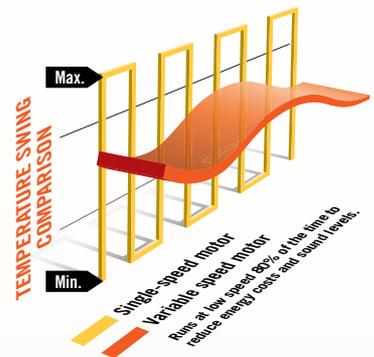

Innovative features make your home feel more comfortable.

Variable speed technology makes all the difference.

Designed to deliver a **higher degree of comfort and innovation**, the CBX32MV uses advanced variable speed technology to circulate air throughout the home. By operating at a range of speeds, the CBX32MV offers more precise control and helps to reduce sounds and maximize energy efficiency.

During warmer weather, the CBX32MV works with your air conditioner or heat pump to provide consistent cooling, while also lowering humidity levels for improved air quality.

iComfort®-enabled

To get maximum performance from the CBX32MV,

just add the **iComfort Wi-Fi® Touchscreen Thermostat**. The easy-to-use iComfort Wi-Fi can be programmed in minutes. It allows the air handler to exchange information with other iComfort-enabled home comfort system components and make adjustments as needed, so you feel comfortable without having to think about it.

More-breathable air

During hot weather, the CBX32MV provides continuous air circulation while cooling your home. The variable speed motor allows your air conditioner to remove moisture from the air for improved comfort and air quality. And **low-speed fan operation** increases the effectiveness of your filters, allowing them to capture and remove more allergy-aggravating contaminants.

A friendlier refrigerant

The CBX32MV is optimized to work with air conditioners or heat pumps using the **chlorine-free R-410A refrigerant**, which meets the U.S. EPA's most stringent environmental guidelines.

We're obsessed with the pursuit of creating perfect air, and doing so with absolute efficiency.

Since 1895, Lennox has been on a continuous quest to reinvent home comfort. Perfect air is our purpose and our obsession. Today, that pursuit takes shape in many innovative ways: precise and energy-efficient air conditioners, the quietest high-efficiency furnaces, heat pumps, Wi-Fi-enabled thermostats, air handlers, air cleaners, small-space comfort systems, boilers and more.

Peace-of-mind protection

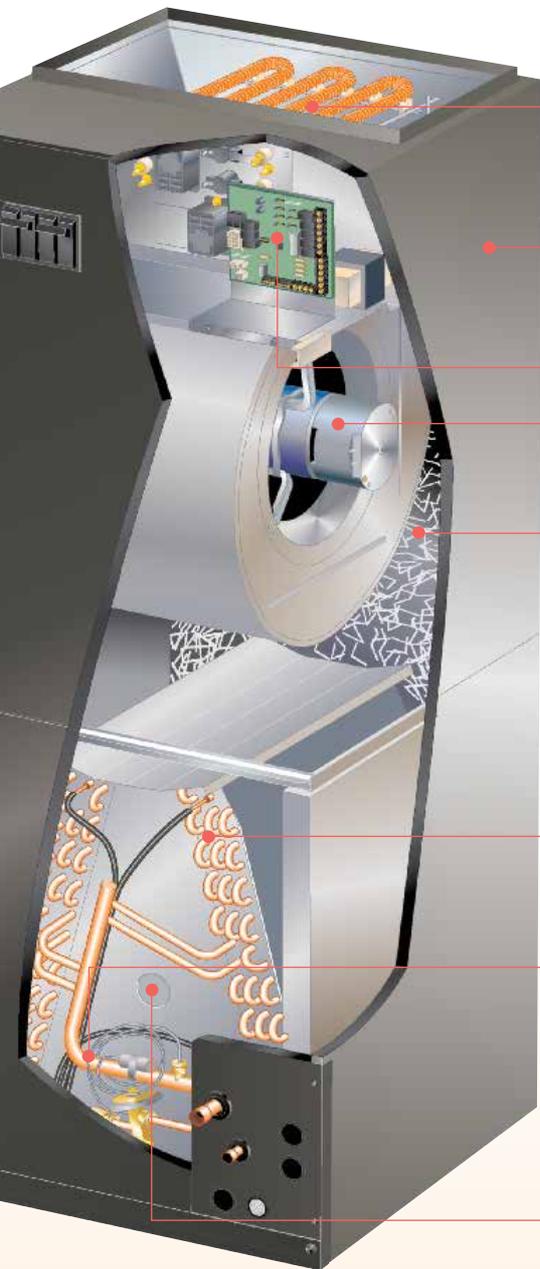

The CBX32MV comes with a 10-year limited warranty on all covered components.*

Dealers you can count on

You can trust Lennox dealers to design the right system for your home, install it properly and keep it running perfectly for many years to come. Because Lennox has more than 6,000 dealers throughout North America, you can rest assured there's a dealer near you.

Optional EvenHeater® Electric Heat – Provides backup heat in stages, rather than all at once, to maintain a comfortable indoor temperature and prevent drafts.

Corrosion-Resistant Cabinet – Offers long-lasting reliability with a durable, baked-on finish.

iComfort®-Enabled Technology – Allows the CBX32MV to exchange information with other home comfort system components and make adjustments as needed to optimize performance and efficiency.

Variable Speed Blower Motor – Allows enhanced humidity control and improved indoor air quality for added comfort.

Insulated Blower Compartment – Reduces sound for quiet operation. Meets Florida standard for 2%-or-less air leakage from unit.

High-Efficiency Evaporator Coil – Provides excellent heat transfer and efficiency.

Efficient Check and Expansion Device – Ensures highly efficient operation and uses non-ozone-depleting R-410A refrigerant.

Antimicrobial Drain Pan – Inhibits mold and mildew growth and is made of a durable composite material that won't corrode or rust.

Air Purifier-Ready – Allows easy installation of a Healthy Climate® germicidal light, which helps kill germs in the air and keep the system clean.

Dave Lennox Signature® Collection CBX32MV Specifications

Model	018/024	024/030	036	048	060	068

Note: Due to Lennox' ongoing commitment to quality, all specifications, ratings and dimensions are subject to change without notice.
 *Applies to residential applications only. See actual warranty certificate for details.

Lennox is proud of the fact that these products have earned the Good Housekeeping Seal.

A system of innovative products, all working perfectly together.

Every Lennox® product is a standout on its own. Working together in one system, Lennox products fill your home with air that's perfectly heated and cooled, and they do so with absolute efficiency.

Why choose a complete system?

Indoor and outdoor units can only operate at their peak potential when they are compatible with each other in type and size, as well as performance capabilities. By combining Lennox products that are made to work together, you can create an ideal system for your home.
