

## M120 SERIES

# Multi-Poise Air Handlers

## Trust Maytag®

Whether you've had a tough day at work or are returning from a family vacation, there's something wonderful about coming home. You expect your home to be a comfortable place for you, and your Maytag M120 Series multi-poise air handler helps make it just that. To ensure that comfort, each Maytag air handler comes with one of the most comprehensive warranties available.

## DEPENDABILITY FROM THE INSIDE-OUT

Below are key features and benefits of Maytag M120 Series multi-poise air handlers.

- A Maytag M120 Series air handler, when combined with a Maytag heat pump or air conditioner, completes your quality indoor comfort system.
- When installed with a matched outdoor unit, Maytag air handlers will carry the outdoor system warranty – a 12-year Worry-Free Limited Warranty on parts.
- Maytag M120 air handlers are available in variable-speed configurations for better humidity control and improved efficiency with a matched air conditioner or heat pump. Ideal for humid climates.
- Multi-poise and variable speed air handlers are available for use with Smart Cool 410™ environmentally friendly refrigerant.

## DEPEND ON MAYTAG®

Just as you expect from Maytag, your air handler offers one of the best warranties available in the industry. Maytag air handlers carry a 5-year all parts warranty and when installed with a matched outdoor unit, will carry the outdoor system warranty – a 12-year Worry-Free Limited Warranty on parts. Ask your select Maytag heating and cooling dealer for details, or visit us at [www.maytagvac.com](http://www.maytagvac.com).

## HOW DOES AN AIR HANDLER IMPROVE MY INDOOR AIR QUALITY?

A multi-poise variable speed air handler can increase your overall comfort by minimizing the amount of stagnant air you have in your home. When paired with an air conditioner, it circulates cool air throughout your house during the summer. When an air handler is matched with a heat pump, it works all year long, circulating cool air in the summer and warm air in the winter.

Ask your select Maytag heating and cooling dealer how you can increase your home comfort and energy efficiency with a multi-poise air handler.

## CREATE TOTAL INDOOR COMFORT

Air Conditioner

Thermostat

Air Cleaner

Humidifier

Your air handler is only one part of the comfort system that affects your air quality and energy savings. The following system components from Maytag can improve indoor air quality and help ensure the performance of your comfort system.

**Air Conditioner or Heat Pump:** Your air handler is designed to bring peak performance to your Maytag M120 Series split system air conditioners and heat pumps.

**Programmable Thermostat:** The thermostat automatically adjusts your indoor temperature to accommodate both your home and away schedules, thereby reducing energy costs.

**Electronic Air Cleaner:** Improve indoor air filtration with an electronic air cleaner that can remove 95% of household allergens, such as dust mites, pollen and smoke.

**Humidifier:** Climates with dry air can irritate your skin and trigger allergies, as well as cause furniture and dry wall to crack. A whole-house humidifier helps maintain appropriate moisture levels within your home.

**UV Germicidal Lamps:** Installing an ultraviolet accessory on your furnace or air handler helps eliminate odor-causing mold and fungus that can develop in the wet area of an evaporator coil or drain pan.

For more information about these and other Maytag products, please consult your select Maytag heating and cooling dealer.

Maytag air handlers feature Smart Cool 410™ refrigerant, an earth-friendly, non-ozone-depleting refrigerant.

Smart Cool is a trademark of NORDYNE.
