

PROVIDING COMFORT, QUALITY AND WORRY-FREE PERFORMANCE

M1200 Two-Stage, Variable-Speed Heating Comfort

Maytag® M1200 High-Efficiency Two-Stage, Variable-Speed Gas Furnaces

Maytag two-stage, variable-speed gas furnaces help solve common household comfort issues such as hot and cold spots and temperature swings. They operate at the most efficient level of comfort inside, no matter what the weather is outside.

The two-stage variable-speed furnace works at a higher or lower capacity depending on the outdoor temperatures. Since there are fewer startup and shutdown cycles, the sound levels are also much lower than standard furnaces. Longer cycles improve air circulation and minimize temperature variations. By mixing air from floor to ceiling, the variable-speed blower creates more uniform temperatures.

Reducing air velocity also allows airborne particles and moisture to be captured at a higher rate, resulting in improved air filtration and reduced humidity levels.

Whole-home comfort is more than just heating and cooling. Maytag offers indoor air quality solutions to reduce dust, mold, household allergens, and more throughout the entire home. Or, control temperatures in specific rooms of your choice with a Maytag zoning system. Maytag accessories are covered by a 12-year limited parts warranty when installed and registered with your new Maytag furnace.

Energy Efficiency

Maytag furnaces are rated in Annual Fuel Utilization Efficiency (AFUE) units. A higher AFUE rating makes it easier for your system to perform more efficiently by delivering more heat to your home and lowering your utility bills. You can be sure in the total comfort of your home that Maytag furnaces will save you more.

Three-Year Heating Savings of compared units - dollar amounts computed at \$.092 ccf, for 2,500 full-load heating hours and a system rated at 60,000 Btuh. Actual savings vary depending on climate conditions, fuel rates, and patterns of usage according to individual lifestyle.

Sound Quality

The unique burner design and the insulated blower cabinet provide clean and quiet operation.

Advanced Technology

On gas units, the SmartStart® Control Board learns the igniter's heat-up characteristics. It then adapts the ignition time to the furnace's characteristics, resulting in extending the life of the igniter.

Maytag furnaces feature iSEER® technology that increases the energy efficiency of your outdoor air conditioner or heat pump during the cooling season. Cooling performance is measured in terms of SEER (Seasonal Energy Efficiency Ratio). The higher the SEER, the more energy efficient the cooling system performs.

iSEER®

Maytag furnaces featuring iSEER increase that performance by 1 SEER. Ask your dealer about Maytag's line of energy efficient outdoor products.

Innovation and Style

These models feature brushed, stainless steel doors for superior quality and rust-free durability. Maytag furnaces are also small in size making them ideal for tight spaces.

Peace of Mind

The M1200 Series of products feature a 12 Year Worry-Free Limited Warranty on parts.*

M1200 Series Gas Furnaces

Our Dependability Promise states that your entire furnace will be replaced if the heat exchanger fails during the first 12 years of ownership.*

Your Maytag 95.1 AFUE 2-Stage Variable-speed Gas Furnace exceeds the ENERGY STAR** guidelines for product efficiency. ENERGY STAR certification is awarded to products designed to reduce energy consumption and utility costs.

95.1 AFUE furnaces are part of our ecoLogic™ family, the most energy-efficient, environmentally friendly products we offer.

Ask your Select Maytag heating and cooling dealer or visit us at www.maytaghv.com for warranty details.

* Applicable to the original owner.

** To qualify, furnaces must have an Annual Fuel Utilization Efficiency (AFUE) rating of 90% or higher.

95.1 AFUE Gas Furnaces

All Maytag gas furnaces rated 90 AFUE and above have been evaluated with the Annual Fuel Utilization Efficiency (AFUE) scale and meet or exceed the ENERGY STAR guidelines for product efficiency.

Maytag 95.1 AFUE model gas furnaces offer a 12-Year Worry-Free Limited Warranty. Additionally, they offer a limited lifetime heat exchanger warranty. Ask your Select Maytag heating and cooling dealer for details.

80 AFUE Gas Furnaces

Maytag 80 AFUE model gas furnaces offer a 12-Year Worry-Free Limited Warranty, with a limited lifetime heat exchanger warranty. See warranty for details.

Our Dependability Promise states that your entire gas furnace will be replaced if the heat exchanger fails within the first 12 years of purchase. Ask your Select Maytag heating and cooling dealer for details.
