

WHAT'S INSIDE MATTERS®

PROVIDING COMFORT, QUALITY

AND WORRY-FREE PERFORMANCE

M1200 COMFORT SYSTEMS

14 & 15 SEER ▪ SMALL PACKAGED PRODUCTS

M1200 PACKAGED FIXED-SPEED AIR CONDITIONERS AND HEAT PUMPS

14 SEER HIGH-EFFICIENCY SINGLE-STAGE & 15 SEER EXTRA HIGH-EFFICIENCY TWO-STAGE

You can always look to Maytag to make your life just a little more livable. Maytag® M1200 packaged air conditioners and heat pumps work seamlessly and efficiently to increase your comfort at home. These units are designed to be quiet and energy efficient while providing comfort and dependability. For your peace of mind, each Maytag® unit comes with the Worry-Free Warranty when registered, one of the most comprehensive warranties available.

Unlike most heating and cooling systems, which are divided into outdoor and indoor sections, a “packaged” system includes all the components necessary to heat and/or cool your home in one, convenient unit.

ADVANCED TECHNOLOGY

Two-stage cooling operates at lower capacity during mild summer days and at full capacity during hotter ones. Because these units run at a reduced capacity, they provide better comfort and perform more quietly than single-stage units.

The fixed-speed ECM direct-drive motor provides higher torque and operating speeds for improved airflow capacity.

Maytag® 15 SEER/8.0 HSPF and 14 SEER/8.0 HSPF packaged heat pumps provide electric heating and cooling. During warmer months, they collect heat from the air in your home and move it to the outside. In winter, the process reverses, and the heat pump collects heat from air outside to warm the air inside your home.

Supplemental heater kits can also be installed with Maytag® packaged air conditioners to heat the home. Your select Maytag® contractor can recommend the appropriate packaged product and accessories for your home.

CORROSION PROTECTION

These models feature polyester, urethane-coated galvanized steel with a 950-hour salt spray finish, which protects the unit from corrosion 50% better than other coatings.

ENVIRONMENTALLY SMART

Maytag® packaged systems feature a wire coil guard coated with earth friendly epoxy and a plastic mesh hail guard that will never rust. They protect the coil from being damaged by balls, lawnmowers, hail, etc.

ADVANCED COIL TECHNOLOGY

All Maytag® packaged systems features enhanced evaporator coils to better combat corrosion.

DURABILITY AND STYLE

All Maytag® packaged air conditioners and heat pumps are built using proven, reliable parts. Each part is examined carefully with our rigorous quality check process.

QUIET COMFORT

The high-efficiency condenser motor and fan blades provide quiet operation and low vibration. Your packaged unit is only one part of the comfort system that affects your air quality and energy savings. Maytag offers a complete line of system components to improve indoor air quality and help ensure the performance of your comfort system.

Copeland Scroll® Compressors have fewer working parts than reciprocating piston compressors for quieter operation, longer service life and reliability.

ENERGY EFFICIENCY

Maytag® packaged products provide high-efficiency, less energy consumption and lower utility bills. You can be sure in the total comfort of your home that Maytag® packaged products will save you more.

Annual costs based on 36,000 Btu units, 1,500 cooling load hours and .08/kwh. Actual costs may vary depending on climate conditions, energy rates and patterns of usage.

ENERGY STAR® certification is awarded to products designed to reduce energy consumption and utility costs. To qualify, packaged air conditioner and heat pump systems must have a Seasonal Energy Efficiency Ratio (SEER) rating of 15.0 or higher and an Energy Efficiency Ratio (EER) of 12.0 or higher. Packaged heat pumps are also ENERGY STAR rated by a Heating Seasonal Performance Factor (HSPF) of 8.2 or higher.

PEACE OF MIND

This Maytag® series of products offer a 12-Year Worry-Free Limited Warranty on parts when the product is registered.*

Plus, our Dependability Promise states that your entire unit will be replaced if the compressor or heat exchanger fails within the first 12 years of purchase, when registered.*

*Applicable to the original owner.

Ask your select Maytag® heating and cooling contractor or visit us at www.maytagvac.com for warranty details.
