and we can help!**

Meet your Comfort Advisor:

Austin "Hud" Hudnall, USMC

Years HVACR Experience: 1

Favorite Past Time Activity: Hunting and Fishing

Hi! I'm Austin, sometimes known as Hud. I came to Monthie Mechanical after completing my service as a Marine. I am excited to apply the same tactical precision to addressing your comfort needs and concerns by offering strategic solutions. I enjoy spending time with friends, family and my dog, Ace. My favorite hobbies are hunting, fishing and being outdoors.

As a member of the Monthie Mechanical Client Consultation Team, I individually pledge that:

- I will treat you, your family and home with the utmost respect.
- I will be thorough and complete in conducting all aspects of the replacement process.
- I will help guide you in designing a system specifically tailored for your family's year-round comfort that will also maximize your home's energy efficiency.
- I will be committed to your 100% satisfaction today and in the future.
- My ultimate goal is to build long-term relationships with my clients, not transactions, so that you will feel comfortable telling your friends and family about Monthie Mechanical.
