## DUCT CLEANING SERVICES

A Division of North 49 Home Services Ltd.

 Dirt/dust builds up in the return air duct work. Traditional heating and cooling systems recirculate the air in your home via the supply and return air ducts.

 Dirt/dust deposits can reduce the efficiency of your heating and air conditioning system and can cause physical discomfort and illness by degrading the quality of the air you and your family breathe.

 According to the EPA (Environmental Protection Agency) cleaning air duct systems may improve duct efficiency and the home air environment

 Thousands of home fires in North America start in the dryer. The National Fire Prevention Association states that cleaning your dryer vent regularly will help cut the risk of a fire starting in your dryer.

## Special Offer with Duct Cleaning:

Free maintenance tune up of your furnace with our warranty approved 18 point safety & efficiency service.

**A \$99 value!**
