

Six Reasons HVAC Maintenance Is Essential

- 1. Save Money** - Prevent costly breakdowns, reduce energy bills, extend the life of your system and maintain the integrity of your warranty. Regular HVAC maintenance is said to reduce the risk of costly breakdowns by 95%.
- 2. Improve Your Air Quality** - preventive maintenance helps ensure that the warm or cooled air circulating through your vents is as clean and well-filtered as possible.
- 3. Improve Your Comfort** - regular maintenance helps your system produce and distribute warm or cool air evenly and steadily. It reduces the odds that you arrive home one day in the winter to a cold home with no heat.
- 4. Keep Your Home Safer** - preventive maintenance helps to safeguard your family against the risk of carbon monoxide and water leaks. The most common cause of carbon monoxide is a cracked or failed heat exchanger.
- 5. Help the Environment** - well maintained HVAC systems use considerably less fuel. Service Technicians can also explain to you the benefits of programmable thermostats that also help reduce the impact on the environment.
- 6. Peace of Mind** - investing in a preventive maintenance plan gives you the comfort of knowing that if something goes wrong, you have already taken steps to make the situation as painless as possible.

Would you gamble with maintenance on your vehicle? HVAC systems work 24/7 and require regular maintenance to operate reliably and efficiently.

Werley Heating & Air Conditioning Co. Priority Service Club Maintenance Agreement

Terms & Conditions:

- Maintenance agreements are automatically renewed on an annual basis unless cancelled 30 days prior to renewal.
- Agreements are non-cancellable once enrolled.
- Non-payment of agreement will result in being retroactively billed for any services or repairs that were discounted as a result of initial enrollment in a maintenance agreement.

Payment Options:

- Payment for the year may be made in full at a discounted rate upon enrollment. See Service Technician for details.
- You may enroll in Automatic Payments to have your monthly payments charged to your credit/debit card. Monthly payment dates will be determined upon enrollment.

Maintenance Plan Details

***Evaporator and condenser coil is cleaned without removing from the system. Removing coils from the system is a stand-alone service and will be quoted at current rates.*

****Purchase Accrual Conditions:*

- Purchase Accrual can be used toward the purchase of any qualifying heating and/or air conditioning system.
- Purchase accrual cannot be used toward the purchase of accessories, sheet metal work or repairs to existing equipment.
- Purchase Accrual is capped at \$500.00 and cannot be redeemed for cash value.
- Client must remain on Maintenance Agreement continuously without lapse to retain Purchase Accrual.
