Proudly serving St. Louis and the surrounding areas since 1960. We are a 4th generation family company providing honest and dependable service.

HELLO AND HAPPY SPRING TO OUR QUALITY FAMILY OF CUSTOMERS! As the weather heats up your air conditioner becomes one of the most indispensable appliances in your home. Carefree comfort requires a little preparation with general maintenance and a clean and check service by one of our technicians. Undetected issues can lead to reduced comfort and higher electric bills. Just like your vehicle, regular maintenance also extends the life of your heating and cooling system and helps prevent unexpected failure on the hottest day of the year. Let us help you keep you and your family cool all summer long. **We are honored to be your local heating and cooling company.**

It's that time of year to ensure the proper operation of your air conditioner! Our annual Service Agreements were mailed out last month for Customers that renew in the spring. If you have misplaced yours, please contact us.

SMART THERMOSTATS Cruise Control for Your Home

Enjoy personalized comfort tailored to you and your family's lifestyle with a smart thermostat that works for you. We proudly carry the White Rodgers line of thermostats

including the White Rodgers Wi-Fi SENSI thermostat. Our SENSI is compatible with ALEXA, Google Home and Apple Home Kit and has been **named the 2017 "Best Overall SMART Thermostat."** Available in both a touchscreen design and standard, both can be controlled from your tablet, smart phone or at home. Control your SENSI from the kitchen or across the world while saving money on energy costs. Utility rebates, up to \$75 are also available. Lock the thermostat from others changing the temperature and feel protected with the monitoring system that helps you predict, prevent and protect against expensive heating and cooling issues. For more details visit www.sensicomfort.com or contact us!

Answer the survey and be entered to win a \$25 Amazon Gift Card for your help.

What would you do with an Amazon gift card? By taking this 2 minute survey you will be entered into a drawing for a chance to **WIN ONE OF TWO \$25 Amazon gift cards!** Improving the services you receive is our priority. **Survey ends MAY 10TH** Click the link to begin <https://www.surveymonkey.com/r/VYGMDLX>

ASK OUR EXPERT

Richard Wagner, Sr.
Owner

What is the difference between a heat pump and air conditioner?

The biggest difference is that a heat pump can both cool and heat while the conventional air conditioner only cools. Heat pumps rely on 100% electric to operate versus a system with an air conditioner can use gas for the heating and is generally more cost effective to operate, maintain and purchase.

Per Energy.gov about 48% of a home's energy bills are from your

home's heating and cooling system. Providing you with recommendations to save on energy bills, Amy has compiled this list of other changes that can help keep your hard earned money in your bank.

1. Call your Homeowner's insurance company and ask about discounts for newly installed thermostats and heating & cooling systems.
2. Setup a schedule on your programmable thermostat and/or turn the temperature on your A/C up at night and when you're away, around 76°-78° during the summer.
3. Use your bathroom fan during and after you shower to remove heat and humidity.
4. Avoid setting a lamp, T.V., computer or other electronic near your thermostat since it senses heat from these items which will make your air conditioner run longer.
5. Change your furnace filter monthly.
6. Hose your outdoor condenser out 5-8 times during the summer. (Turn it off first)

Since the fixed amount of R-22, known as Freon, is depleting quickly, prices are soaring. Freon is being replaced with the refrigerant R410A, also

known as Puron. Unfortunately Puron will not work in units that currently use Freon. So, what can you do? Continue getting your A/C serviced until Freon supplies are exhausted or the guaranteed remedy is replacing your unit with a Puron compatible unit. Thanks to Ameren Missouri rebates and financing, this makes the choice easier on your wallet. We are here to answer any questions and help minimize the impact on you and your family.

COOKING WITH CAROL

Carol loves sharing healthy and yummy recipes with our Quality family. Here is a special spring recipe she hopes you enjoy!

FRUIT ROLL-UPS

INGREDIENTS

- 10 Slices of white bread
- 1 Can of apple or cherry pie filling
- 1/3 Cup of melted butter
- 1/2 Cup of Sugar
- 1 Tsp. Cinnamon

DIRECTIONS

Preheat oven to 350°. Cut crusts off bread and roll flat. Mix cinnamon and sugar on a plate. Chop fruit into small pieces. Spoon 2 Tbs. of fruit onto each slice of bread, and roll up. Dip each roll-up into butter and then roll in cinnamon/sugar mix. Place each, seam side down, on a parchment paper lined baking sheet. Bake 15 minutes or until brown and crispy. Serve warm with ice cream. **ENJOY!**

BREATHE EASY! Does someone in your home suffer from asthma or allergies? If the answer is YES then you know the impact of having clean air indoors. We are excited to share with you an addition to our home comfort products; the Reme Halo Air Purifier. According to the EPA, "air within homes and other buildings can be more seriously polluted than the outdoor air." Research shows that

People spend about 90% of their time indoors which means for many health risks can be greater due to exposure of indoor air pollutants. We are here to not only ensure your home comfort but that the quality of the air you breathe is healthy. The Reme Halo is a whole house air purifier is not only U.S. Military approved for mold reduction in field hospitals but also kills up to 99% of bacteria, mold and viruses as well as reduces air borne dust, dander, pollen and mold spores. Contact us today for more information!

GIVING BACK to our community is important to our company. On a cold day in January, Amy received a call from a World War 2 veteran who had no heat and a furnace with a carbon monoxide leak. After a call with Rich Sr. it was decided we needed to get this Vet a new furnace. We donated and installed a brand new Bryant furnace. We hope this story inspires you to help others too!

At Quality Heating and Cooling we believe that more money should stay in your pocket. This is why any rebates you receive for upgrading your heating and cooling system are instant rebates so you do not have to wait for checks to be mailed. Instant rebates up to \$825 can be applied to the purchase of upgrading your heating and cooling equipment. Call today for a free proposal!
