Ameren Missouri Heating and Cooling Program

Program Eligibility Information

General Eligibility Information

- The equipment or service must meet the program’s eligibility requirements listed here to qualify for the rebate. **Please confirm the eligibility of your system with a participating contractor.**
- The dwelling must be associated with a current Ameren Missouri residential electric account.
- To be eligible for participation in the program, the dwelling unit must be one of the following:
 - Single-family residence
 - Multifamily building with four units or fewer, in any configuration
 - Row house, which is defined as a single-family dwelling unit that shares common vertical walls only with other single-family dwelling units. Multistory, multifamily dwelling units with greater than four units that also share a horizontal surface (floor or ceiling) with another dwelling unit do not qualify.
- A participating contractor must be used to install qualifying equipment and that contractor must be participating at the time of installation or service. Participating contractors can be located by visiting AmerenMissouri.com/hvac or calling 1.877.215.5752. When you call the participating contractor, mention that you are interested in Ameren Missouri rebates.
- All rebate applications and supporting documents must be submitted by a participating contractor within 30 days of installation and by February 15, 2019.

New Equipment Rebate Eligibility

- Newly installed equipment must meet or exceed the Seasonal Energy Efficiency Ratio (SEER) or Energy Efficiency Ratio (EER) levels set forth by the program and documented by the Air-Conditioning, Heating and Refrigeration Institute (AHRI).
- Receipt of a Tune-Up Plus Ameren Missouri Efficiency Analysis in 2013-2015 does not affect eligibility for new equipment rebates.
- Existing operating CAC and ASHP being replaced must have a SEER rating of 12 or lower.
- Existing operating GSHP being replaced must have an EER rating of 12 or lower (partial cooling load).
- Rebate eligibility is dependent on the existing heating source. Please see the chart below for eligibility.
