

## Laclede Gas Energy Efficiency Rebate Program

Laclede Gas gives you money back to help make upgrading to more energy-efficient equipment easier. Follow the steps below to start saving energy and money now and for years to come!

Apply online at [LacledeGas.com/savings](http://LacledeGas.com/savings) to obtain a rebate on eligible natural gas furnaces, boilers, programmable thermostats and water heaters. You can also call 1-866-542-4352 to request an application form by mail.

### How It Works:

1. Select qualifying high-efficiency equipment. A list of eligibility requirements can be found on the inside of this brochure as well as at [LacledeGas.com/savings](http://LacledeGas.com/savings). A professional contractor can offer guidance on the right equipment to best suit your needs.
2. Purchase and install your new qualifying equipment. Save all receipts and product information. Eligible equipment must be purchased and installed in a residence with an active Laclede Gas account.
3. Submit your completed rebate form and a copy of the product invoice with complete manufacturer and model numbers and/or store receipt(s) via the online application portal or by mail.
4. You'll receive your rebate check in the mail in about 4 to 6 weeks.

### What You'll Need To Apply:

- Your 10-digit Laclede Gas Account Number
- A copy of a dated sales receipt/invoice showing manufacturer, model #, price and date of purchase
- We also ask for (but do not require) an estimate of the age and efficiency of equipment you've replaced. Your contractor can help you with this information if you cannot locate it.

### Need help?

Visit [LacledeGas.com/efficiency](http://LacledeGas.com/efficiency) or call 1-866-542-4352.

Get extra cash back from Laclede Gas when you buy qualifying high-efficiency equipment.

Make your qualifying purchase, then go to [LacledeGas.com/savings](http://LacledeGas.com/savings) to easily redeem your rebate. See step-by-step details on the back.

## How much can you save?

Equipment	Rated	Rebate
Programmable Thermostat	7-Day Programmable	\$25 or 50% of the equipment cost, whichever is lower
Gas Furnace	≥ 96% AFUE	\$300
Gas Furnace	92% < 96% AFUE	\$200
Gas Boiler	≥ 90% AFUE	\$300
Integrated Space and Water Heating System	Tank system: ≥ 90% AFUE	\$450
Integrated Space and Water Heating System	Tankless system: ≥ 0.82 EF	\$450
Tankless Gas Water Heater (less than 2 gallons)	≥ 0.82 EF	\$300
Gas Water Heater (56 - 100 gallons)	≥ 0.77 EF	\$350
Gas Water Heater (20 - 55 gallons)	≥ 0.67 EF	\$200

Annual Fuel Utilization Efficiency (AFUE) and Energy Factor (EF) ratings measure how efficiently a unit converts energy into heat as well as how much heat is lost during storage.

Rebate amounts effective as of May 1, 2015. Laclede Gas rebates may be combined with other available manufacturer rebates.

### Not sure where to begin?

With the **Home Energy Advisor**, Laclede Gas can help you create an action plan to start saving that fits your lifestyle while tracking progress along the way. It's free to sign up through Laclede's Customer Connection web portal. Join today to get started!

You can also find a Home Contractor and learn about financing options that let you pay right on your Laclede Gas bill at [LacledeGas.com/savings](http://LacledeGas.com/savings).
