

Ameren Missouri Heating and Cooling Program

Rebate Chart for New Construction – Residential Electric Customers Only

Rebates valid for installs on or after March 1, 2019.

Heating and Cooling Program New Construction Rebate Measures*	Single-Family	Multi-Family
Ductless Systems[†] <i>AHRI Rated, Per Outdoor Unit</i>		
SEER 19+ – Ductless AC	\$200	
SEER 19+ – Ductless Air-Source Heat Pump	\$300	
Ductless Air-Source Heat Pumps are NOT eligible in new construction residences using gas as a primary heat source. The only exception is with an addition in which the dwelling's existing ducted gas heating system is not being replaced and the installation of a properly sized ducted system to the newly constructed space is cost prohibitive.		
Ground Source Heat Pump[†] <i>AHRI Rated</i>		
EER 23+ – Ground Source Heat Pump	\$1,800	Not Available
EER requirements above are partial cooling load. Geothermal Heat Pumps are NOT eligible if the new construction residence uses natural gas as a primary heat source.		
Central Air Conditioner <i>AHRI Rated</i>		
SEER 15 – Central Air Conditioner	\$250	\$200
SEER 16 – Central Air Conditioner	\$450	\$350
SEER 17+ – Central Air Conditioner	\$650	\$500
Electronically Commutated Motor (ECM)		
Factory Installed in a New Gas Furnace or Air Handler (Included in AHRI Efficiency Rating)	\$50	
Factory Installed in a New Gas Furnace or Air Handler (Not Included in AHRI Efficiency Rating)	\$50	
ECMs installed with ductless air-source heat pumps are not eligible for a rebate.		

*Offer applies only to qualifying purchases. Valid through December 15, 2021. Visit AmerenMissouriSavings.com/hvac for full program details.

†Ameren Missouri does not promote fuel switching or load building. The intent of these rebates is not to incentivize customers to use a different fuel source but to provide a portion of the cost for a more efficient unit once a fuel source has been chosen.

General Eligibility Information

- The equipment must meet the program's eligibility requirements listed here to qualify for the rebate.
- The dwelling must be associated with a current Ameren Missouri residential electric account.
- To be eligible for participation in the program, the dwelling unit must be one of the following:
 - Single-Family Eligibility**
 - Single-family residence
 - Building with four units or fewer, in any configuration
 - Row house, which is defined as a single-family dwelling unit that shares common vertical walls only with other single-family dwelling units
 - Multi-Family Eligibility**
 - Multistory, multi-family dwelling units with greater than four units that also share a horizontal surface (floor or ceiling) with another dwelling unit
- A Participating Contractor must install the qualifying equipment and that contractor must be considered a Participating Contractor by the Heating and Cooling program at the time of installation. Participating Contractors can be located by visiting AmerenMissouriSavings.com/hvac or calling 877.215.5752.
- All rebate applications and supporting documents must be submitted by a participating contractor within 30 days of service and by December 15, 2021.

New Construction Rebate Eligibility

- Newly installed equipment must meet or exceed the Seasonal Energy Efficiency Ratio (SEER) or Energy Efficiency Ratio (EER) levels set forth by the program above and documented by the Air-Conditioning, Heating and Refrigeration Institute (AHRI).

Contractor Eligibility and Participation

- All interested contractors are required to attend program orientation and complete a contractor participation agreement prior to offering Ameren Missouri rebates.
- Rebate applications and supporting documentation are submitted by contractors on behalf of customers.
- In order to begin the process of becoming a Participating Contractor, visit AmerenMissouriSavings.com/hvac or call 877.215.5752.

Ameren Missouri Heating and Cooling Program

Rebate Chart – Residential Electric Customers Only

Rebates valid for installs on or after March 1, 2019.

Heating and Cooling Program Rebate Measures*	Single-Family	Multi-Family
Air-Source Heat Pump Replacing Air Source Heat Pump[†] AHRI Rated		
SEER 15 – Replace Operating Air-Source Heat Pump	\$400	\$250
SEER 16-17.99 – Replace Operating Air-Source Heat Pump	\$500	\$300
SEER 18+ – Replace Operating Air-Source Heat Pump (HSPF must be ≥ 10.0 to be eligible)	\$600	\$350
Available only when the replaced Air-Source Heat Pump meets operating/early replacement requirements. There is no failed equipment status rebate available for this improvement measure.		
Air-Source Heat Pump Replacing Central Air Conditioner and Electric Resistance[†] AHRI Rated		
SEER 15 – Replace Central Air Conditioner and Electric Resistance Furnace	\$600	\$400
SEER 16-17.99 – Replace Central Air Conditioner and Electric Resistance Furnace	\$750	\$450
SEER 18+ – Replace Central Air Conditioner and Electric Resistance Furnace	\$900	\$500
Ductless Systems[†] AHRI Rated, Per Outdoor Unit		
SEER 19+ – Ductless AC - Replace Central Air Conditioner	\$200	
SEER 19+ – Replace Air-Source Heat Pump	\$300	
SEER 19+ – Replace Central Air Conditioner and Electric Resistance Furnace	\$500	
SEER 19+ – Installed With Existing Gas Heat [‡]	\$500	
[‡] Available only in a dwelling unit with existing gas heat, but where there is no existing ductwork to the space to be conditioned by the Ductless Air-Source Heat Pump and where installation of a properly sized ducted system to that space is cost prohibitive.		
Ground Source Heat Pump[†] AHRI Rated		
EER 23+ – Replace Electric Resistance Furnace	\$1,800	Not Available
EER 23+ – Replace Ground Source Heat Pump	\$700	Not Available
EER requirements above are partial cooling load. Ground Source Heat Pump rebates are only available when replacing a ground source heat pump or electric furnace, not when there is existing gas heat.		
Central Air Conditioner AHRI Rated		
SEER 15 – Replace Central Air Conditioner	\$250	\$200
SEER 16 – Replace Central Air Conditioner	\$450	\$350
SEER 17+ – Replace Central Air Conditioner	\$650	\$500
Electronically Commutated Motor (ECM)		
Factory Installed in a New Gas Furnace or Air Handler (Included in AHRI Efficiency Rating)	\$50	
Factory Installed in a New Gas Furnace or Air Handler (Not Included in AHRI Efficiency Rating)	\$50	
Retrofit ECM Replacing Permanent Split Capacitor Blower Motor (Note: This measure is not affected by AHRI rating)	\$50	
ECMs installed with Ductless Air-Source Heat Pumps are not eligible for a rebate.		
Learning Thermostat		
Qualifying Energy Star Plus Learning Thermostat - see list on AmerenMissouriSavings.com/hvac *	\$50	

*Offer applies only to qualifying purchases. Visit AmerenMissouriSavings.com/hvac for full program details. For new construction projects that do not involve replacing systems, please refer to the Heating and Cooling program new construction rebate chart for program details.

[†]Ameren Missouri does not promote fuel switching or load building. The intent of these rebates is not to incentivize customers to use a different fuel source but to provide a portion of the cost for a more efficient unit once a fuel source has been chosen.

General Eligibility Information

- The equipment must meet the program's eligibility requirements listed here to qualify for the rebate. **Please confirm the eligibility of your system with a Participating Contractor.**
- The dwelling must be associated with a current Ameren residential electric account.
- To be eligible for participation in the program, the dwelling unit must be one of the following:
 - Single-Family Eligibility**
 - Single-family residence
 - Building with four units or fewer, in any configuration
 - Row house, which is defined as a single-family dwelling unit that shares common vertical walls only with other single-family dwelling units
 - Multi-Family Eligibility**
 - Multistory, multifamily dwelling units with greater than four units that also share a horizontal surface (floor or ceiling) with another dwelling unit
- A Participating Contractor must install qualifying equipment, and that contractor must be considered a Participating Contractor by the Heating and Cooling program at the time of installation. Participating Contractors can be located by visiting AmerenMissouriSavings.com/hvac or calling 877.215.5752. When you call the Participating Contractor, mention that you are interested in Ameren rebates.
- All rebate applications and supporting documents must be submitted by a Participating Contractor within 30 days of installation and by December 15, 2021.

New Equipment Rebate Eligibility

- Newly installed equipment must meet or exceed the Seasonal Energy Efficiency Ratio (SEER) or Energy Efficiency Ratio (EER) levels set forth by the program and documented by the Air-Conditioning, Heating and Refrigeration Institute (AHRI).
- Existing operating CAC and ASHP being replaced must have a nameplate SEER rating of 12 or lower.
- Existing operating GSHP being replaced must have a nameplate EER rating of 12 or lower (partial cooling load).
- Existing failed CAC, ASHP or GSHP does not require maximum nameplate SEER/EER rating.
- Existing equipment that is operating must produce a temperature drop across the coil to be classified as early replacement. If the outside temperature is below 65 degrees, the Participating Contractor must verify that the compressor is operational.
- Rebate eligibility is dependent on the existing heating source. Please see the chart below for eligibility.

Does your house have an:	Then you may qualify for these program rebates*:		
	Air Conditioner	Air-Source Heat Pump/Ductless	Ground Source Heat Pump
Air Conditioner With Gas Furnace?	Up to \$650	No [†]	No
Air Conditioner With Electric Furnace?	Up to \$650	Up to \$900	Up to \$1,800
Air-Source Heat Pump With Gas Furnace?	No	Up to \$600	No
Air-Source Heat Pump With Electric Strip Back-Up Heat?	No	Up to \$600	No
Ground Source Heat Pump?	No	No	Up to \$700

*Some restrictions may apply. Valid through December 15, 2021. Visit AmerenMissouriSavings.com/hvac for full program details.

[†]Available only in a dwelling unit with existing gas heat, but where there is no existing ductwork to the space to be conditioned by the Ductless Air-Source Heat Pump and where installation of a properly sized ducted system to that space is cost prohibitive.
