# THE DO'S AND DON'TS OF YOUR HVAC SYSTEM

Your HVAC system is a large investment, and you want to keep it up and running for as long as possible. To ensure that you get the most out of your HVAC, we've created a list of do's and Don'ts to help you provide your system with the care and maintenance that it deserves.

## Do

- Schedule regular maintenance every six months
- Change your air filters
- Place your thermostat in a central location
- Use a programmable thermostat

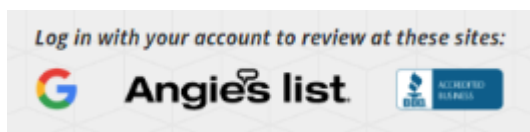

- Turn the heat off during the winter
- Wait until it's cold to turn your furnace on
- Ignore strange noises or smells
- Service your system on your own

## Don't

Positive reviews and valuable feedback about our services from awesome customers like you help others to feel confident about choosing Air Plus Heating & Cooling and serves as an important resource for us to learn what areas need improvements and changes to better serve you and meet your heating and cooling needs.

*Thank you in advance for helping us out!*

### < 12 Years

As long as your furnace is serviced regularly by a reputable technician, there's no need to worry

### < 16-20 Years

Average life expectancy of a furnace - it might be time to start looking for a new furnace

## SIGNS YOU MAY NEED A NEW FURNACE

- \* Energy bills going up
- \* Furnace repairs: furnaces incur most breakdowns in last two years of service
- \* Thermostat is no longer keeping you comfortable
- \* Strange noises from furnace or vents

During the Holiday Season more than ever,  
Our thoughts turn gratefully to those who have made our  
progress possible. And in this spirit we say, simply but  
sincerely.....

Thank You and Best Wishes for the Holiday Season!
