ENERGY SAVING COOLING TIPS

BEAT THE SUMMER HEAT AND SAVE!

PROGRAM YOUR THERMOSTAT

Program your thermostat to higher temperatures while you're away from home. Typical savings are 1-2% of your total energy bill for each degree above 72.

SERVICE AND MAINTENANCE

A professionally maintained and serviced unit will keep your unit in top shape and is your first line of defense in early problem detection

CLEAN AND REPLACE FILTERS

Clean and replace air filters regularly. Dirty filters restrict airflow and use excess energy to circulate air.

REDUCE YOUR ENERGY BILL WITH THESE HELPFUL HINTS

USE CEILING AND ROOM FANS

Increasing air movement helps to cool rooms quickly resulting in your AC unit working less often

MONITOR ENERGY USE

Keep a watchful eye on household energy consumption and modify accordingly

SEAL LEAKS

Weather strip, seal and caulk drafty windows and doors

HVAC Project On A Budget?
Ask About Our Financing Options!

We offer emergency services for all of your heating, air conditioning and water heater breakdowns. Our regular hours are 8:00am - 5:00pm so after hours just call **(513)769-0871** and follow the prompts to be connected to our live operators to have a service technician dispatched to your home ASAP.

(additional service fee applies)

For a limited time, we are offering our lowest discounted prices possible to make it affordable to replace your R-22 systems with compliant R-410 systems to avoid potential costly or non-repairable breakdowns.

Call our office today, (513)769-0871, to schedule an appointment to get your personalized pricing from one of our Home Advisers.

**#1 - NOW**

- ☐ Buy a high-efficiency pleated air filter.
- ☐ Keep AC & heat units free of leaves, pollen, & grass.
- ☐ Clear 2 feet of space around outdoor AC & heat units.

#2 - MONTHLY OR SEASONALLY

- ☐ Inspect refrigerant lines each month.
- ☐ Replace your air filter at least every 90 days.
- ☐ Summer, turn off water to the furnace humidifier.
- ☐ Fall, replace the humidifier filter and turn on water.

#3 - ANNUALLY

- ☐ Replace your carbon monoxide detector battery.
- ☐ Ensure outdoor AC unit is on firm and level ground.
- ☐ Clear AC condensate drain with a bleach/water mixture.
