

Strong Roots, Steady Growth: 26 Years of Trusted HVAC Service

BUILT ON INTEGRITY, DRIVEN BY EXCELLENCE

M&W Heating and Air started in January 1999 with two men, one full-time and one part-time. It was a time when there were only a couple of heating and air companies in Middle Georgia, and breaking in was just hard. Leaving the safety of corporate America and stepping out on faith that "being men of great character, integrity, honesty, educating our customers and doing a great job first and foremost" was a driving force. There were short days, long days, hard days in the beginning, growing pains, all the logistics of operating and working a new business, and 26 years later, you still deal with all of the above.

We have successfully navigated all the heating and air mandates throughout the years that are regulated at the federal government level. We will always educate our customers on the operations of their HVAC system, air quality, humidity issues, service, and maintenance importance, and always give them all their options to make an educated decision for a repair or replacement.

Today, M&W Heating and Air is led by Mike Weeks and Mark McCranie, who have the same values we started in 1999—integrity, honesty, and getting a job right the first time. They are men whose words they speak are true in every way in business and personal matters. You can be guaranteed your heating and air needs are important to them as if it were their home or their own family, whether in the Commercial or Residential market.

We stand strong in 2025 with 14 employees. We invest in each one's education throughout the year with specialty training hours and staff meetings to better service them and our customers. Being a small, family-owned and run business, we take great pride in being a Bryant Factory Authorized Dealer, where we are backed 100% by the factory in all we do. We are set apart from other companies in this aspect. We also take great pride in being a long-standing member of the Better Business Bureau, where Mark also serves on the Board of Directors.

For however long the Lord blesses us to continue our work, we will stay steadfast in being a leader in Middle Georgia in the Heating and Air industry. We are small but mighty, standing strong in good faith for a job well done and Whatever It Takes.
